TRANSPORTATION

(SEVENTH DIVISION)

RAILWAY MAIL SERVICE

INTRODUCTION

1. To prepare for an examination for clerk in the **railway mail service,** it is necessary to be thoroughly familiar with the subject of **Transportation.** This subject is not only a very important one in the examination before the Civil Service Commission, but the knowledge obtained from studying it will be of material benefit after you have entered the service, as you will be examined in it from time to time. For this reason, we have made the instruction in this subject particularly thorough so as to fit you for your work after appointment as well as for the examination. The seventh railway mail division comprises the states of Missouri, Kansas, Colorado, and New Mexico.

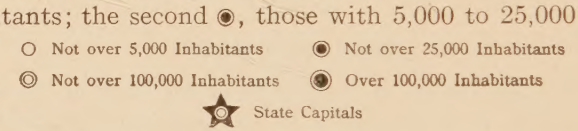
2. **Outline of Work.**—To acquire a thorough knowledge of Transportation, you will be required to study this Instruction Paper, a map of your Railway Mail division, and an Official Guide of Railways.

The Instruction Paper contains a list of the railroads in your division arranged in alphabetical order. The names that are given are the names of the railroad systems and not the names of the roads comprising the system. Following the list of railroads is a complete summary of each railroad mentioned, giving the beginning and terminus of its main line and all its branch lines. This summary also contains a complete list of the junction points between these terminal

Copyrighted by International Textbook Company. All rights reserved

points and the connecting railroads at each junction point and at the terminals. The stations after which are printed the words "End of line" or "End of branch" are terminal points of main lines or branch lines; if they are junction points, the name of another railroad is printed under the words "End of line" or "End of branch."

The map that you are to use contains all terminal points, junction points, and the railroads entering them. The relative importance of each station, with regard to population, is distinguished by the following characters: The first character ○, represents towns with not more than 5,000 inhabitants; the second ◉, those with 5,000 to 25,000 inhab-



itants; the third ◎, cities having between 25,000 and 100,000 inhabitants; the fourth ◉, cities of 100,000 inhabitants and over; and the last ★, the state capitals.

The Official Guide of Railways will be found of great advantage. It contains a general railroad map of all the railroads of the United States as well as complete individual maps of the more prominent ones; an alphabetical list of all railroads, which gives an index to the map and schedule of each; and a list of the old and the new names of railroads and stations that have recently been changed. At the end of the book will be found a complete alphabetical list of all railroad stations in the United States, showing on what railroad or railroads each station is situated.

3. **Terms Used.**—A **junction point** is the place (city, town, or station) where two or more railroads (using separate tracks) enter, meet, or cross; or it is a place (city, town, or station) from which branch lines of a system diverge. Joplin, Mo., situated on the St. Louis & San Francisco, Kansas City Southern, Missouri, Kansas, & Texas, and Missouri Pacific railroads is an example of the first kind; Burlingame, Kans., on the Atchison, Topeka, & Santa Fe is an example of the second.

A **trunk line** is the main line of a large railroad system having numerous branch lines, for example, the Union Pacific, which has branches at Salina, Kans., and Oakley, Kans.

By the **shortest route** is meant either the shortest actual distance or the shortest time distance between two points; in this work we will consider the shortest distance as the shortest route. The information for either definition, however, can be readily found in the Official Guide of Railways, which contains a schedule of each railroad giving the actual distance and the time distance between stations. For example, you will find from the schedule of the St. Louis & San Francisco railroad that the actual distance between St. Louis, Mo., and Monett, Mo., is 283 miles and that the time distance is 8 hours.

4. **Care of the Map.**—So that the map may always present a smooth surface, it should be mounted on a piece of heavy cardboard. This will preserve the map and prevent its being torn.

Proceed in the following manner to mount the map:

Materials Required.—Good liquid glue or mucilage, a small brush, a dry cloth, a sheet of paper slightly larger than the map, and a piece of cardboard somewhat larger than the sheet of paper. First, unfold the map and lay it flat on the cardboard with the wrong side up and smooth out the creases as best you can with your thumb nail. Next fold down over the edge of the cardboard about $\frac{1}{2}$ inch of the upper and lower edges of the map; apply the glue with the brush to the folded edges only. Then reverse the map and place over it a blank sheet of paper and smooth it from the center toward the top and bottom edges with the dry cloth, pressing down the glued edges until they are sufficiently dry to adhere to the cardboard at every point.

HOW TO STUDY

5. **Order of Study.**—The study of this subject should be conducted as follows: First, tracing the map; second, learning the junction points and the connecting railroads at them;

and third, compiling a notebook to contain the railroad routes between prominent cities and all the junction points on these routes, and the connecting railroads at these junction points.

6. Tracing the Map.—Stretch over the map a piece of tracing linen with the dull side up. Tack both the map and the tracing linen to a table or a light, planed board by means of eight thumbtacks. Trace with a sharpened, soft, black pencil the boundary of your division, then the boundary lines of each state in the division. Indicate, on the tracing, the beginning and terminus of the first railroad, the Alamogordo & Sacramento Mountain, which appears on page 10 of this Instruction Paper; for example, indicate the location of Alamogordo, N. Mex., and Russia, N. Mex. Next, with a black-lead pencil, draw the line of this railroad between the terminal points indicated on the tracing. Next, indicate the location of the beginning and terminal of the second railroad, the Arizona & New Mexico, which appears on page 10. Mark the location of each junction point, printed on page 10 between these terminal points, with a character similar to the one on the map. Memorize the connecting railroads at each junction point as you indicate them on the tracing. Mark the names of these junction points in the same position that they appear on the map. Next, draw the line of this railroad between the junction points indicated on the tracing. Again, indicate the beginning and terminus of the main line of the Atchison, Topeka, & Santa Fe railroad between Fort Madison, Iowa, and Denver, Colo., and the junction points between them, and, as before, memorize the connecting railroads at each point. Draw on the tracing, with a different-colored pencil, the line of this railroad between the junction points indicated. Mark on the tracing, the beginning and terminus of the first branch of the Atchison, Topeka, & Santa Fe that you will find on page 12; for example, Lajunta, Colo., and El Paso, Tex. Then indicate on the tracing, with a character similar to the one on the map, the location of each junction point between

these points and mark the names in the same position they appear on the map. As before, memorize the connecting railroads at each junction point and terminal, then draw with the same colored pencil that you used for marking the main line, the line of this branch between the junction points indicated. Continue this operation until you have traced the entire system. Indicate the next railroad and continue in this manner until you have drawn on the tracing all the railroads comprising your division; the result will be that you will have produced a facsimile of the map that you are studying. Six pencils of different color will be sufficient for this work, since a solid line of one color can represent one railroad and a dotted line of the same color can represent another railroad.* It is not necessary to use different-colored pencils on such small railroads as the Alamogordo & Sacramento Mountain, Arizona & New Mexico, Book Cliff, and Campbell & St. Francis Valley railroads, as black will do as well. Wherever the name of a railroad is marked on the map, mark it with black pencil on the tracing. This exercise will be of great assistance to you and will impress on your mind the general direction of each railroad system and its branches as well as the junction points and connecting railroads at them; in fact, it should give you a mental picture of the map of your entire division.

7. Junction Points and Connecting Railroads.—Begin at page 10 of this Instruction Paper, and study the beginning points, junction points, and terminals of each railroad and each of its branches, also of the connecting railroads at each of these points; study these junction points and connecting railroads thoroughly. Do not leave one railroad until you can name, without referring to the book, the beginning and terminus of its main line and its branches, every junction point on it, and the connecting railroads at each of the junction points. After you have accomplished this with the first road, take up the second and then the third, and continue thus until you have finished the entire list. You should

*The tracing linen, thumbtacks, and colored pencils can be purchased of the Technical Supply Company, Scranton, Pa.

conduct this study slowly and systematically and, from time to time, should review from the beginning, so that what you have studied will remain fresh in your memory.

8. Compiling the Notebook.—The object of compiling a notebook is to make you familiar with the manner of answering questions on Transportation. You should select two important cities of your division and find them on your map. Next follow on the map the railroad or railroads forming the shortest route between them and write the names of the railroads in your notebook. If you are in doubt as to which railroads form the shortest route between the points selected, consult your Official Guide of Railways, as explained in Art. **3,** and select the railroads whose schedules give the shortest distance between these points.

For example, the map shows six ways of connecting, by railroad, Kansas City, Mo., and St. Louis, Mo.: namely, by the Wabash; Chicago, Burlington, & Quincy; Chicago & Alton; Missouri Pacific; St. Louis, Kansas City, & Colorado; and Missouri, Kansas, & Texas. The several schedules of these railroads give the distance between Kansas City, Mo., and St. Louis, Mo., as follows: Wabash, 277 miles; Chicago, Burlington, & Quincy, 279 miles; Chicago & Alton, 279.9 miles; Missouri Pacific, 283 miles; St. Louis, Kansas City, & Colorado, 298.5 miles; and the Missouri, Kansas, & Texas, 373 miles. By comparing these results, it is readily seen that the first route is the shortest and should be the one selected.

Having written the names of the railroads forming the shortest route between the two points selected, write in your notebook, one under the other, the junction points as they appear on the map. On the same line with each junction point, write the name of the connecting railroad or railroads at that point. Continue in this manner until you have connected, by railroad, all the prominent cities, one with the other. By this method, you will have the entire map in the form of question and answer.

You should procure a notebook that you can conveniently carry in your pocket, size about 4½ inches by 7 inches. This

notebook should be carried about with you and studied at all times when opportunity offers. Be careful in doing this work and consult the map and Instruction Paper, in order that you may make no mistakes, and finally, after completing this work, answer the questions at the end of this Paper without any assistance, and send the answers to us for correction.

FORM OF NOTEBOOK

Wellington, Colo., to Trinidad, Colo.

Colorado & Southern from Wellington, Colo., to Trinidad, Colo.

Junction Points	Connecting Railroads
Wellington, Colo.	End of line
Ft. Collins, Colo.	Colo. & Sou.

9. **Answering Examination Questions.**—When answering questions in the subject of Transportation, write in full the names of all railroads, and give the name of the state in which each junction point is located, as many states have junction points of the same name. If more than one railroad is required to connect two cities given in a question, always give the point of connection between the two railroads.

Example.—Name the railroad or railroads forming the shortest route between Bowling Green, Mo., and Bagnell, Mo.

Answer.—The Chicago & Alton from Bowling Green, Mo., to Jefferson City, Mo., and the Missouri Pacific from Jefferson City, Mo., to Bagnell, Mo.

LIST OF RAILROADS AND ABBREVIATIONS FOR THEM

Name of Railroad	Abbreviations
Alamogordo & Sacramento Mountain	A. & S. Mt.

TRANSPORTATION

(EIGHTH DIVISION)

RAILWAY MAIL SERVICE

INTRODUCTION

1. To prepare for an examination for clerk in the **railway mail service,** it is necessary to be thoroughly familiar with the subject of **Transportation.** This subject is not only a very important one in the examination before the Civil Service Commission, but the knowledge obtained from studying it will be of material benefit after you have entered the service, as you will be examined in it from time to time. For this reason, we have made the instruction in this subject particularly thorough, so as to fit you for your work after appointment as well as for the examination. The eighth railway mail division comprises the states of California, Nevada, Oregon, Alaska, Arizona, Idaho, Utah, and Washington.

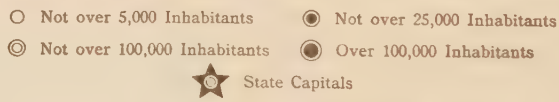
2. **Outline of Work.**—To acquire a thorough knowledge of Transportation, you will be required to study this Instruction Paper, a map of your railway mail division, and the Official Guide of Railways.

The Instruction Paper contains a list of the railroads in your division arranged in alphabetical order. The names that are given are the names of the railroad systems and not the names of the roads comprising the system. Following the list of railroads is a complete summary of each railroad

Copyrighted by International Textbook Company. All rights reserved

mentioned, giving the beginning and terminus of its main line and all its branch lines. This summary also contains a complete list of the junction points between these terminal points and the connecting railroads at each junction point and at the terminals. The stations after which are printed the words "End of line" or "End of branch" are terminal points of main lines or branch lines; if they are junction points, the name of another railroad is printed under the words "End of line" or "End of branch."

The map that you are to use contains all terminal points, junction points, and the railroads entering them. The relative importance of each station, with regard to population, is distinguished by the following characters: The first character ○ represents towns with not more than 5,000 inhabitants; the second ◉, those with 5,000 to 25,000 inhab-



itants; the third ◎, cities having between 25,000 and 100,000 inhabitants; the fourth ◉, cities of 100,000 inhabitants and over; and the last ★, the state capitals.

The Official Guide of Railways will be found of great advantage. It contains a general railroad map of all the railroads of the United States, as well as complete individual maps of the more prominent ones; an alphabetical list of all railroads, which gives an index to the map and schedule of each; and a list of the old and the new names of railroads and stations that have recently been changed. At the end of the book will be found a complete alphabetical list of all railroad stations in the United States, showing on what railroad or railroads each station is situated.

3. **Terms Used.** A **junction point** is the place (city, town, or station) where two or more railroads (using separate tracks) enter, meet, or cross; or it is a place (city, town, or station) from which branch lines of a system diverge. Ogden, Utah, situated on the Oregon Short Line, Rio Grande Western,

Southern Pacific, and Union Pacific is an example of the first kind; and Ash Fork, Ariz., on the Atchison, Topeka, & Santa Fe is an example of the second kind.

A **trunk line** is the main line of a large railroad system having numerous branch lines: for example, the Southern Pacific, which has branches at Reno, Nev., and Bakersfield, Cal.

By the **shortest route** is meant either the shortest actual distance or the shortest time distance between two points; in this work we will consider the shortest distance as the shortest route. The information for either definition, however, can be readily found in the Official Guide of Railways, which contains a schedule of each railroad giving the actual distance and the time distance between stations. For example, you will find from the schedule of the Denver & Rio Grande railroad that the actual distance between Ogden, Utah, and Provo, Utah, is 81 miles and that the time distance is 2 hours and 6 minutes.

4. Care of the Map.—So that the map may always present a smooth surface, it should be mounted on a piece of heavy cardboard. This will preserve the map and prevent its being torn.

Proceed in the following manner to mount the map:

Materials Required.—Good liquid glue or mucilage, a small brush, a dry cloth, a sheet of paper slightly larger than the map, and a piece of cardboard somewhat larger than the sheet of paper. First, unfold the map and lay it flat on the cardboard with the wrong side up and smooth out the creases as best you can with your thumb nail. Next fold down over the edge of the cardboard about ½ inch of the upper and lower edges of the map; apply the glue with the brush to the folded edges only. Then reverse the map and place over it a blank sheet of paper and smooth it from the center toward the top and bottom edges with the dry cloth, pressing down the glued edges until they are sufficiently dry to adhere to the cardboard at every point.

HOW TO STUDY

5. Order of Study.—The study of this subject should be conducted as follows: First, tracing the map; second, learning the junction points and the connecting railroads at them; and third, compiling a notebook to contain the railroad routes between prominent cities and all the junction points on these routes, and the connecting railroads at these junction points.

6. Tracing the Map.—Stretch over the map a piece of tracing linen with the dull side up. Tack both the map and the tracing linen to a table or a light planed board by means of eight thumbtacks. Trace with a sharpened, soft, black pencil the boundary of your division, then the boundary lines of each state in the division. Indicate, on the tracing, the beginning and terminus of the first railroad, the Alameda & San Joaquin, which appears on page 10 of this Instruction Paper; for example, indicate the location of Stockton, Cal., and Coal Mines, Cal. Memorize the connecting railroads at each terminal point as you indicate it on the tracing. Mark the names of these terminal points in the same position that they appear on the map, and then draw the line of this railroad between the terminal points so indicated. Next, mark on the tracing the beginning and terminus of the second railroad, the Anderson & Bella Vista. As before, with a black-lead pencil, draw the line of this railroad between these terminal points. In the same manner, indicate the beginning and terminus of the Arcata & Mad River railroad from Arcata, Cal., to Canyon Creek, Cal. Then, with the black-lead pencil, mark, with a character similar to the one on the map, the location of the junction point Janes Creek, Cal., between these terminal points. Mark the names of this junction point and the terminal points in the same position they appear on the map and memorize the names of the connecting railroads at the junction and terminal points as you indicate them. Then, draw the line of this railroad between the points indicated on the tracing. Proceed

in the same manner with the Arizona & Colorado, Arizona & New Mexico, and Arizona & Utah. Next, indicate on the tracing the beginning and terminus of the main line of the Astoria & Columbia River railroad, then the junction points between these terminal points. Mark the names of these junction and terminal points in the same position that they appear on the map. Next, draw, with a different-colored pencil, the line of this railroad between the junction points indicated on the tracing. In the same manner, indicate on the tracing the beginning and terminus of the branch of the Astoria & Columbia River railroad; for example, Warrenton, Ore., and Fort Stevens, Ore. As before, memorize the connecting railroads at these terminal points, and then draw with the same colored pencil that you used for marking the main line, the line of this branch indicated by the terminal points. Next, indicate, in the manner just described, the beginning and terminus of the main line of the Atchison, Topeka, & Santa Fe railroad and the junction points between them; and with a third-colored pencil draw the line of this railroad between the points so located. Continue in this manner until you have drawn, on the tracing, all the railroads comprising your division; the result will be that you will have produced a facsimile of the map that you are studying. Six pencils of different color will be sufficient for this work, since a solid line of one color can represent one railroad and a dotted line of the same color can represent another railroad.* It is not necessary to use different-colored pencils on such small railroads as the Alameda & San Joaquin, Anderson & Bella Vista, and the Arcata & Mad River, as black will do as well. Wherever the name of a railroad is marked on the map, mark it with black pencil on the tracing. This exercise will be of great assistance to you and will impress on your mind the general direction of each railroad system and its branches as well as the junction points and connecting railroads at them; in fact, it should give you a mental picture of the map of your entire division.

*The tracing linen, thumbtacks, and colored pencils can be purchased of the Technical Supply Company, Scranton, Pa.

7. Junction Points and Connecting Railroads.—Begin at page 10 of this Instruction Paper, and study the beginning points, junction points, and terminals of each railroad and each of its branches, also of the connecting railroads at each of these points; study these junction points and connecting railroads thoroughly. Do not leave one railroad until you can name, without referring to the book, the beginning and terminus of its main line and its branches, every junction point on it, and the connecting railroads at each of the junction points. After you have accomplished this with the first road, take up the second and then the third, and continue thus until you have finished the entire list. You should conduct this study slowly and systematically and, from time to time, should review from the beginning, so that what you have studied will remain fresh in your memory.

8. Compiling the Notebook.—The object of compiling a notebook is to make you familiar with the manner of answering questions on Transportation. You should select two important cities of your division and find them on your map. Next, follow on the map the railroad or railroads forming the shortest route between them and write the names of the railroads in your notebook. If you are in doubt as to which railroads form the shortest route between the points selected, consult your Official Guide of Railways, as explained below, and select the railroads whose schedules give the shortest distance between these points.

For example, the map shows two ways of connecting, by railroad, San Francisco, Cal., and San Bernardino, Cal.; one way by the Southern Pacific, the other by the Atchison, Topeka, & Santa Fe. The schedule of the Southern Pacific railroad gives the distance between San Francisco, Cal., and San Bernardino, Cal., as 482 miles. The schedule of the Atchison, Topeka, & Santa Fe railroad gives the distance as 593 miles. By comparing these results, it is readily seen that the first route is the shorter and should be the one selected.

Having written the names of the railroads forming the shortest route between the two points selected, write in your

notebook, one under the other, the junction points as they appear on the map. On the same line with each junction point, write the name of the connecting railroad or railroads at that point. Continue in this manner until you have connected, by railroad, all the prominent cities, one with the other. By this method, you will have the entire map in the form of question and answer.

You should procure a notebook that you can conveniently carry in your pocket, size about 4½ inches by 7 inches. This notebook should be carried about with you and studied at all times when opportunity offers. Be careful in doing this work to consult the map and Instruction Paper, in order that you may make no mistakes, and finally, after completing this work, answer the questions at the end of this Paper without any assistance, and send the answers to us for correction.

FORM OF NOTEBOOK

Helena, Mont., to Portland, Ore.

Northern Pacific from Helena, Mont., to Portland, Ore.

Junction Points	Connecting Railroads
Helena, Mont.	Gt. Nor.
Garrison, Mont.	Nor. Pac.
Drummond, Mont.	Nor. Pac.

Columbia City, Ore.	A. & C. R. C. & N. V.
Portland, Ore.	A. & C. R. O. R. R. & N. Co. Sou. Pac.

9. Answering Examination Questions.—When answering questions on the subject of Transportation, write, in full, the names of all railroads, and give the name of the state in which each junction point is located, as many states have junction points of the same name. If more than one railroad is required to connect two cities given in a question, always give the point of connection between the two railroads.

Example.—Name the railroad or railroads forming the shortest route between Spokane, Wash., and Stockton, Cal.

Answer.—The Oregon Railroad & Navigation Co., from Spokane, Wash., to Portland, Ore., and the Southern Pacific from Portland, Ore., to Stockton, Cal.

Poland Jc., Ariz.	Atchison, Topeka, & Santa Fe
Poland, Ariz.	End of branch

Congress Jc., Ariz., to Congress, Ariz.

Congress Jc., Ariz.	Atchison, Topeka, & Santa Fe
Congress, Ariz.	End of branch

Camp Five, Cal., to Arcata, Cal.

Camp Five, Cal.	End of branch
Alton Jc., Cal.	Atchison, Topeka, & Santa Fe
Bucksport, Cal.	Bucksport & Elk River
Arcata, Cal.	End of branch Arcata & Mad River Oregon & Eureka

Alton Jc., Cal., to Carlotta, Cal.

Alton Jc., Cal.	Atchison, Topeka, & Santa Fe
Carlotta, Cal.	End of branch

BELLINGHAM BAY & BRITISH COLUMBIA

Bellingham, Wash., to Glacier, Wash.

Junction Points	Connecting Railroads
Bellingham, Wash.	Great Northern Northern Pacific
Hampton, Wash.	Bellingham Bay & British Columbia
Sumas, Wash.	Canadian Northern Northern Pacific
Glacier, Wash.	End of line

Hampton, Wash., to Lynden, Wash.

Hampton, Wash.	Bellingham Bay & British Columbia
Lynden, Wash.	End of branch

BOCA & LOYALTON

Boca, Cal., to Beckwith, Cal.

Junction Points	Connecting Railroads
Boca, Cal.	Southern Pacific
Beckwith, Cal.	End of line
	Nevada, California, & Oregon

BODIE RAILWAY & LUMBER CO.

Bodie, Cal., to Mono Mills, Cal.

Junction Points	Connecting Railroads
Bodie, Cal.	End of line
Mono Mills, Cal.	End of line

BOISE, NAMPA, & OWYHEE

Nampa, Idaho, to Murphy, Idaho

Junction Points	Connecting Railroads
Nampa, Idaho	Idaho Northern
	Oregon Short Line
Murphy, Idaho	End of line

BUCKSPORT & ELK RIVER

Bucksport, Cal., to Falk, Cal.

Junction Points	Connecting Railroads
Bucksport, Cal.	Atchison, Topeka, & Santa Fe
Falk, Cal.	End of line

BUTTE COUNTY

Chico, Cal., to Sterling City, Cal.

Junction Points	Connecting Railroads
Chico, Cal.	Southern Pacific
Barber, Cal.	Southern Pacific
Sterling City, Cal.	End of branch

CALIFORNIA NORTHWESTERN

San Francisco, Cal., to Sherwood, Cal.

Junction Points	Connecting Railroads
Via Ferry: San Francisco, Cal.	Atchison, Topeka, & Santa Fe
	North Shore
	Southern Pacific
Tiburon, Cal.	California Northwestern

Junction Points	Connecting Railroads
San Rafael, Cal.	North Shore
Ignacio, Cal.	California Northwestern
	North Shore
Petaluma, Cal.	California Northwestern
Santa Rosa, Cal.	California Northwestern
	Southern Pacific
Fulton, Cal.	California Northwestern
Sherwood, Cal.	End of line

Ignacio, Cal., to Glen Ellen, Cal.

Ignacio, Cal.	California Northwestern
	North Shore
Shellville, Cal.	Southern Pacific
Glen Ellen, Cal.	End of branch
	Southern Pacific

Petaluma, Cal., to Donahue, Cal.

Petaluma, Cal.	California Northwestern
Donahue, Cal.	End of branch

Santa Rosa, Cal., to Sebastopol, Cal.

Santa Rosa, Cal.	California Northwestern
	Southern Pacific
Sebastopol, Cal.	End of branch

Fulton, Cal., to Guerneville, Cal.

Fulton, Cal.	California Northwestern
Guerneville, Cal.	End of branch

CANANEA, YAQUI RIVER, & PACIFIC

Naco, Ariz., to Cananea, Mex.

Junction Points	Connecting Railroads
Naco, Ariz.	El Paso & Southwestern
Cananea, Mex.	End of line

CENTRAL ARIZONA

Flagstaff, Ariz., to Mormon Dairy, Ariz.

Junction Points	Connecting Railroads
Flagstaff, Ariz.	Atchison, Topeka, & Santa Fe
Mormon Dairy, Ariz.	End of line

COEUR D'ALENE & SPOKANE

Spokane, Wash., to Coeur D'Alene, Idaho

Junction Points	Connecting Railroads
Spokane, Wash.	Great Northern
	Northern Pacific
	Oregon Railroad & Navigation Co.
Post Falls, Idaho	Northern Pacific
Coeur D'Alene, Idaho	End of line
	Northern Pacific

COLUMBIA & NEHALEM VALLEY

Columbia City, Ore., to Pittsburg, Ore.

Junction Points	Connecting Railroads
Columbia City, Ore.	Astoria & Columbia River Northern Pacific
Pittsburg, Ore.	End of line

COLUMBIA RIVER & NORTHERN

Goldendale, Wash., to Lyle, Wash.

Junction Points	Connecting Railroads
Goldendale, Wash.	End of line
Lyle, Wash.	Connects with Columbia River boats

COLUMBIA SOUTHERN

Biggs, Ore., to Shaniko, Ore.

Junction Points	Connecting Railroads
Biggs, Ore.	Oregon Railroad & Navigation Co.
Shaniko, Ore.	End of line

COLUSA & LAKE

Colusa, Cal., to Sites, Cal.

Junction Points	Connecting Railroads
Colusa, Cal.	End of line
Colusa Jc., Cal.	Southern Pacific
Sites, Cal.	End of line

COOS BAY, ROSEBURG, & EASTERN

Marshfield, Ore., to Myrtle Point, Ore.

Junction Points	Connecting Railroads
Marshfield, Ore.	End of line
Beaver Hill Jc., Ore.	Coos Bay, Roseburg, & Eastern
Myrtle Point, Ore.	End of line

Beaver Hill Jc., to Beaver Hill, Ore.

Beaver Hill Jc., Ore.	Coos Bay, Roseburg, & Eastern
Beaver Hill, Ore.	End of branch

CORVALLIS & EASTERN

Yaquina, Ore., to Idahna, Ore.

Junction Points	Connecting Railroads
Yaquina, Ore.	End of branch
Corvallis, Ore.	Southern Pacific
Albany, Ore.	Southern Pacific
Shelburn, Ore.	Southern Pacific
Idahna, Ore.	End of line

DENVER & RIO GRANDE

Grand Jc., Colo., to Ogden, Utah

Junction Points	Connecting Railroads
Grand Jc., Colo.	Colorado Midland
Mounds, Utah	Denver & Rio Grande
Colton, Utah	Denver & Rio Grande
Thistle Jc., Utah	Denver & Rio Grande
Springville, Utah	Denver & Rio Grande
	San Pedro, Los Angeles, & Salt Lake
Provo City, Utah	Denver & Rio Grande
	San Pedro, Los Angeles, & Salt Lake
Lehi Jc., Utah	San Pedro, Los Angeles, & Salt Lake
Bingham Jc., Utah	Denver & Rio Grande
	Oregon Short Line
	San Pedro, Los Angeles, & Salt Lake
Roper, Utah	Denver & Rio Grande
Salt Lake City, Utah	Oregon Short Line
	Salt Lake & Los Angeles
	Salt Lake & Ogden
	San Pedro, Los Angeles, & Salt Lake
Farmington, Utah	Oregon Short Line
	Salt Lake & Ogden
Ogden, Utah	End of line
	Oregon Short Line
	Southern Pacific
	Union Pacific

Mounds, Utah, to Sunnyside, Utah

Mounds, Utah	Denver & Rio Grande
Sunnyside, Utah	End of branch

Clear Creek, Utah, to Graystone, Utah

Clear Creek, Utah	End of branch
Colton, Utah	Denver & Rio Grande
Graystone, Utah	End of branch

Springville, Utah, to Silver City, Utah

Springville, Utah	Denver & Rio Grande
	San Pedro, Los Angeles, & Salt Lake
Payson, Utah	San Pedro, Los Angeles, & Salt Lake
Spanish Fork, Utah	San Pedro, Los Angeles, & Salt Lake
Eureka, Utah	San Pedro, Los Angeles, & Salt Lake
Mammoth Jc., Utah	San Pedro, Los Angeles, & Salt Lake
Silver City, Utah	End of branch
	San Pedro, Los Angeles, & Salt Lake

Provo City, Utah, to Heber, Utah

Provo City, Utah	Denver & Rio Grande
	San Pedro, Los Angeles, & Salt Lake
Heber, Utah	End of branch

Bingham Canyon, Utah, to Alta, Utah

Junction Points	Connecting Railroads
Bingham Canyon, Utah	End of branch
West Jordan, Utah	Denver & Rio Grande
Bingham Jc., Utah	Denver & Rio Grande
	Oregon Short Line
	San Pedro, Los Angeles, & Salt Lake
Alta, Utah	End of branch

Roper, Utah, to Park City, Utah

Roper, Utah	Denver & Rio Grande
Park City, Utah	End of branch
	Union Pacific

Thistle Jc., Utah, to Marysvale, Utah

Thistle Jc., Utah	Denver & Rio Grande
Ephraim, Utah	San Pete Valley
Manti, Utah	San Pete Valley
Salina, Utah	Denver & Rio Grande
Marysvale, Utah	End of branch

Salina, Utah, to Nioche, Utah

Salina, Utah	Denver & Rio Grande
Nioche, Utah	End of branch

EL PASO & SOUTHWESTERN

Benson, Ariz., to Hachita, N. Mex.

Junction Points	Connecting Railroads
Benson, Ariz.	Southern Pacific
Fairbank, Ariz.	El Paso & Southwestern
	Southern Pacific
Charleston, Ariz.	Southern Pacific
Naco, Ariz.	Cananea, Yaqui River, & Pacific
Osborn, Ariz.	El Paso & Southwestern
Junction, Ariz.	El Paso & Southwestern
Douglas, Ariz.	Nacozari
Hachita, N. Mex.	Arizona & New Mexico

Fairbank, Ariz., to Tombstone, Ariz.

Fairbank, Ariz.	El Paso & Southwestern
	Southern Pacific
Tombstone, Ariz.	End of branch

Osborn, Ariz., to Bisbee, Ariz.

Osborn, Ariz.	El Paso & Southwestern
French, Ariz.	Atchison, Topeka, & Santa Fe
	El Paso & Southwestern
Bisbee, Ariz.	End of branch

Junction, Ariz., to French, Ariz.

Junction Points	Connecting Railroads
Junction, Ariz.	El Paso & Southwestern
French, Ariz.	Atchison, Topeka, & Santa Fe
	El Paso & Southwestern

EUREKA & PALISADE

Palisade, Nev., to Eureka, Nev.

Junction Points	Connecting Railroads
Palisade, Nev.	Southern Pacific
Eureka, Nev.	End of line

GILA VALLEY, GLOBE, & NORTHERN

Bowie, Ariz., to Globe, Ariz.

Junction Points	Connecting Railroads
Bowie, Ariz.	Southern Pacific
Globe, Ariz.	End of line

GOBLE, NEHALEM, & PACIFIC

Goble, Ore., to Mist, Ore.

Junction Points	Connecting Railroads
Goble, Ore.	Astoria & Columbia River
	Northern Pacific
Mist, Ore.	End of line

GRAND CANYON

Williams, Ariz., to Grand Canyon, Ariz.

Junction Points	Connecting Railroads
Williams, Ariz.	Atchison, Topeka, & Santa Fe
Grand Caynon, Ariz.	End of line

GREAT NORTHERN

Jennings, Mont., to Vancouver, B. C.

Junction Points	Connecting Railroads
Jennings, Mont.	Great Northern
Bonner's Ferry, Idaho	Great Northern
Sand Point, Idaho	Northern Pacific
Colbert, Wash.	Great Northern

Junction Points	Connecting Railroads
Spokane, Wash.	Coeur D'Alene & Spokane

Via Van., W. M., & Yukon: Brownsville, B. C.	Vancouver, Westminster, & Yukon
	Victoria Terminal
Via Van., W. M., & Yukon: Westminster, B. C.	Canadian Pacific
	Vancouver, Westminster, & Yukon
	Victoria Terminal
Via Van., W. M., & Yukon: Vancouver, B. C.	End of line
	Canadian Pacific

Bonner's Ferry, Idaho, to Kuskonook, B. C.

Bonner's Ferry, Idaho	Great Northern
Creston Jc., B. C.	Canadian Pacific
Sirdar Jc., B. C.	Canadian Pacific
Kuskonook, B. C.	End of branch
	Canadian Pacific

Colbert, Wash., to Nelson, B. C.

Colbert, Wash.	Great Northern
Marcus, Wash.	Great Northern
Northport, Wash.	Great Northern
Nelson, B. C.	End of branch
	Canadian Pacific
	Nelson & Ft. Sheppard

Northport, Wash., to Rossland, B. C.

Northport, Wash.	Great Northern
Rossland, B. C.	End of branch
	Canadian Pacific

Marcus, Wash., to Republic, Wash.

Marcus, Wash.	Great Northern
Grand Forks Jc., B. C.	Great Northern
Carson, B. C.	Republic & Kettle River
Curlew, Wash.	Republic & Kettle River
Summit, Wash.	Republic & Kettle River
Republic, Wash.	End of branch
	Republic & Kettle River

Everett, Wash., to Seattle, Wash.

Junction Points	Connecting Railroads
Everett, Wash.	Great Northern
Ballard, Wash.	Northern Pacific
Seattle, Wash.	End of branch
	Northern Pacific
	Pacific Coast

Anacortes, Wash., to Rockport, Wash.

Anacortes, Wash.	End of branch
Burlington Wash.	Great Northern
Sedro Woolley, Wash.	Northern Pacific
Cokedale Jc., Wash.	Great Northern
Rockport, Wash.	End of branch

Cokedale Jc., Wash., to Cokedale, Wash.

Cokedale Jc., Wash.	Great Northern
Cokedale, Wash.	End of branch

Belleville, Wash., to Samish, Wash.

Belleville, Wash.	Great Northern
Lookout, Wash.	Northern Pacific
Samish, Wash.	End of branch

IDAHO NORTHERN

Nampa, Idaho, to Emmett, Idaho.

Junction Points	Connecting Railroads
Nampa, Idaho	Boise, Nampa, & Owyhee
	Oregon Short Line
Emmett, Idaho	End of line

INDEPENDENCE & MONMOUTH

Independence, Ore., to Monmouth, Ore.

Junction Points	Connecting Railroads
Independence, Ore.	Southern Pacific
Monmouth, Ore.	End of line
	Southern Pacific

IRON MOUNTAIN

Keswick, Cal., to Iron Mountain, Cal.

Junction Points	Connecting Railroads
Keswick, Cal.	Southern Pacific
Iron Mountain, Cal.	End of line

KLAMATH LAKE

Lairds, Cal., to Pokegama, Ore.

Junction Points	Connecting Railroads
Lairds, Cal.	Southern Pacific
Pokegama, Ore.	End of line

LAKE TAHOE RY. & TRANSPORTATION CO.

Truckee, Cal., to Tahoe, Cal.

Junction Points	Connecting Railroads
Truckee, Cal.	Southern Pacific
Tahoe, Cal.	End of line

LOS ANGELES & REDONDO

Los Angeles, Cal., to Redondo, Cal.

Junction Points	Connecting Railroads
Los Angeles, Cal.	Atchison, Topeka, & Santa Fe San Pedro, Los Angeles, & Salt Lake Southern Pacific
Redondo, Cal.	End of line Atchison, Topeka, & Santa Fe

LUDLOW & SOUTHERN

Ludlow, Cal., to Camp Rochester, Cal.

Junction Points	Connecting Railroads
Ludlow, Cal.	Atchison, Topeka, & Santa Fe
Camp Rochester, Cal.	End of line

McCLOUD RIVER

Upton, Cal., to McCloud, Cal.

Junction Points	Connecting Railroads
Upton, Cal.	Southern Pacific
McCloud, Cal.	End of line

MARICOPA & PHOENIX & SALT RIVER VALLEY

Maricopa, Ariz., to Tempe, Ariz.

Junction Points	Connecting Railroads
Maricopa, Ariz.	Southern Pacific
Tempe, Ariz.	Atchison, Topeka, & Santa Fe Maricopa & Phoenix & Salt River Valley

Phoenix, Ariz., to Mesa, Ariz.

Junction Points	Connecting Railroads
Phoenix, Ariz.	Atchison, Topeka, & Santa Fe
Tempe, Ariz.	Atchison, Topeka, & Santa Fe Maricopa & Phoenix & Salt River Valley
Mesa, Ariz.	Atchison, Topeka, & Santa Fe

MORENCI SOUTHERN

Guthrie, Ariz., to Morenci, Ariz.

Junction Points	Connecting Railroads
Guthrie, Ariz.	Arizona & New Mexico
Morenci, Ariz.	End of line

NATIONAL CITY & OTAY

San Diego, Cal., to Tia Juana, Cal.

Junction Points	Connecting Railroads
San Diego, Cal.	Atchison, Topeka, & Santa Fe San Diego, Cuyamaca, & Eastern San Diego, Pacific Beach, & La Jolla
Sweetwater Jc., Cal.	National City & Otay
Tia Juana, Cal.	End of line

Sweetwater Jc., Cal., to Lapresa, Cal.

Sweetwater Jc., Cal.	National City & Otay
Lapresa, Cal.	End of branch

NEVADA, CALIFORNIA, & OREGON

Reno, Nev., to Madeline, Cal.

Junction Points	Connecting Railroads
Reno, Nev.	Southern Pacific Virginia & Truckee
Plumas Jc., Cal.	Nevada, California, & Oregon
Madeline, Cal.	End of line

Plumas Jc., Cal., to Clairville, Cal.

Plumas Jc., Cal.	Nevada, California, & Oregon
Beckwith, Cal.	Boca & Loyalton
Clairville, Cal.	End of branch

NEVADA CENTRAL

Battle Mountain, Nev., to Austin, Nev.

Junction Points	Connecting Railroads
Battle Mountain, Nev.	Southern Pacific
Austin, Nev.	End of line

NEVADA COUNTY NARROW GAUGE

Colfax, Cal., to Nevada City, Cal.

Junction Points	Connecting Railroads
Colfax, Cal.	Southern Pacific
Nevada City, Cal.	End of line

NORTHERN PACIFIC

Helena, Mont., to Portland, Ore.

Junction Points	Connecting Railroads
Helena, Mont.	Great Northern
Garrison, Mont.	Northern Pacific
Drummond, Mont.	Northern Pacific
Missoula, Mont.	Northern Pacific

TRANSPORTATION
(NINTH DIVISION)

RAILWAY MAIL SERVICE

INTRODUCTION

1. To prepare for an examination of clerk in the **railway mail service,** it is necessary to be thoroughly familiar with the subject of **Transportation.** This subject is not only a very important one in the examination before the Civil Service Commission, but the knowledge obtained from studying it will be of material benefit after you have entered the service, as you will be examined in it from time to time. For this reason, we have made the instruction in this subject particularly thorough, so as to fit you for your work after appointment as well as for the examination. The ninth railway mail division comprises the states of Illinois, Indiana, Ohio, and Michigan.

2. **Outline of Work.**—To acquire a thorough knowledge of Transportation, you will be required to study this Instruction Paper, a map of your railway mail division, and the Official Guide of Railways.

The Instruction Paper contains a list of the railroads in your division arranged in alphabetical order. The names that are given are the names of the railroad systems and not the names of the roads comprising the system. Following the list of railroads is a complete summary of each railroad line and all its branch lines. The summary also contains a complete list of the junction points between these terminal points and the connecting railroads at each junction point and at the terminals. The stations after which are printed

Copyrighted by International Textbook Company. All rights reserved

the words "End of line" or "End of branch" are terminal points of main lines or branch lines; if they are junction points, the name of another railroad is printed under the words "End of line" or "End of branch."

The map that you are to use contains all terminal points, junction points, and the railroads entering them. The relative importance of each station, with regard to population, is distinguished by the following characters: The first character ○ represents towns with not more than 5,000 inhabitants; the second ◉, those with 5,000 to 25,000 inhab-

itants; the third ◎, cities having between 25,000 and 100,000 inhabitants; the fourth ◉, cities of 100,000 inhabitants and over; and the last ★, the state capitals.

The Official Guide of Railways will be found of great advantage. It contains a general railroad map of all the railroads of the United States as well as complete individual maps of the more prominent ones; an alphabetical list of all railroads, which gives an index to the map and schedule of each; and a list of the old and the new names of railroads and stations that have recently been changed. At the end of the book will be found a complete alphabetical list of all railroad stations in the United States, showing on what railroad or railroads each station is situated.

3. **Terms Used.**—A **junction point** is the place (city, town, or station) where two or more railroads (using separate tracks) enter, meet, or cross; or it is a place (city, town, or station) from which branch lines of a system diverge. Logansport, Ind., situated on the Pennsylvania, Vandalia Line, and Wabash is an example of the first kind; and Lester, Ohio, on the Baltimore & Ohio, is an example of the second.

A **trunk line** is the main line of a large railroad system having numerous branch lines; for example, the Wabash, which has branches at Fort Wayne, Ind., and Decatur, Ill.

By the **shortest route** is meant either the shortest actual distance or the shortest time distance between two points; in this work we will consider the shortest distance as the shortest route. The information for either definition, however, can be readily found in the Official Guide of Railways, which contains a schedule of each railroad giving the actual distance and the time distance between stations. For example, you will find from the schedule of the Illinois Central railroad that the actual distance between Chicago, Ill., and Effingham, Ill., is 199.03 miles and that the time distance is 4 hours and 45 minutes.

4. **Care of the Map.**—So that the map may always present a smooth surface, it should be mounted on a piece of heavy cardboard. This will preserve the map and prevent its being torn.

Proceed in the following manner to mount the map:

Materials Required.—Good liquid glue or mucilage, a small brush, a dry cloth, a sheet of paper slightly larger than the map, and a piece of cardboard somewhat larger than the sheet of paper. First, unfold the map and lay it flat on the cardboard with the wrong side up and smooth out the creases as best you can with your thumb nail. Next fold down over the edge of the cardboard about $\frac{1}{2}$ inch of the upper and lower edges of the map; apply the glue with the brush to the folded edges only. Then reverse the map and place over it a blank sheet of paper and smooth it from the center toward the top and bottom edges with the dry cloth, pressing down the glued edges until they are sufficiently dry to adhere to the cardboard at every point.

HOW TO STUDY

5. **Order of Study.**—The study of this subject should be conducted as follows: first, tracing the map; second, learning the junction points and the connecting railroads at them; and third, compiling a notebook to contain the railroad routes between prominent cities and all the junction points on these routes, and the connecting railroads at these junction points.

6. Tracing the Map.—Stretch over the map a piece of tracing linen with the dull side up. Tack both the map and the tracing linen to a table or a light, planed board by means of eight thumbtacks. Trace with a sharpened, soft, black pencil the boundary of your division, then the boundary lines of each state in the division. Indicate, on the tracing, the beginning and terminus of the first railroad, the Ann Arbor, which appears on pages 10 and 11 of this Instruction Paper; for example, indicate the location of Toledo, Ohio, and Frankfort, Mich. Next, with a black-lead pencil, mark on the tracing with a character similar to the one on the map the location of each junction point printed on pages 10 and 11 between these terminal points. Memorize the connecting railroads at each junction point as you indicate them on the tracing. Next, draw the line of this railroad between the junction points indicated on the tracing. In the same manner, locate and draw the line of the second and third railroads, the Arcadia & Betsey River and the Ashland & Western. Next, indicate on the tracing the beginning and terminus of the main line of the fourth railroad, the Atchison, Topeka, & Santa Fe, from Chicago, Ill., to Fort Madison, Iowa. Then, indicate on the tracing the location of the junction points between these terminal points and memorize the connecting railroads at each junction point as you indicate them. Next, draw, with a different colored pencil, the line of this railroad between the junction points so indicated. Next, mark on the tracing the beginning and terminus of the first branch of the Atchison, Topeka, & Santa Fe that you will find on page 12; for example, Ancona, Ill., and Pekin, Ill. Then, indicate on the tracing, with a character similar to the one on the map, the location of each junction point between these points and mark the names in the same position they appear on the map.

As before, memorize the connecting railroads at each junction point and terminal, then draw, with the same colored pencil that you used for marking the main line, the line of this branch between the junction points indicated. Continue this operation until you have traced the entire system. Indicate the next railroad in the same manner, and so continue

until you have drawn on the tracing all the railroads comprising your division. The result will be that you will have produced a facsimile of the map that you are studying. Six pencils of different color will be sufficient for this work, since a solid line of one color can represent one railroad and a dotted line of the same color can represent another railroad.* It is not necessary to use different colored pencils on such small railroads as the Arcadia & Betsey River, Au Sable & Northwestern, Blaney & Southern, and Boyne City & Southeastern, as black will do as well. Wherever the name of a railroad is marked on the map, mark it with black pencil on the tracing. This exercise will be of great assistance to you and will impress on your mind the general direction of each railroad system and its branches as well as the junction points and connecting railroads at them; in fact, it should give you a mental picture of the map of your entire division.

7. Junction Points and Connecting Railroads.—Begin at page 10 of this Instruction Paper, and study the beginning points, junction points, and terminals of each railroad and each of its branches, also the connecting railroads at each of these points; study these junction points and connecting railroads thoroughly. Do not leave one railroad until you can name, without referring to the book, the beginning and terminus of its main line and its branches, every junction point on it, and the connecting railroads at each of the junction points. After you have accomplished this with the first road, take up the second and then the third, and continue thus until you have finished the entire list. You should conduct this study slowly and systematically and, from time to time, should review from the beginning, so that what you have studied will remain fresh in your memory.

8. Compiling the Notebook.—The object of compiling a notebook is to make you familiar with the manner of answering questions on Transportation. You should select two important cities of your division and find them on your

*The tracing linen, thumbtacks, and colored pencils can be purchased of the Technical Supply Co., of Scranton, Pa.

map. Next, follow on the map the railroad or railroads forming the shortest route between them and write the names of the railroads in your notebook. If you are in doubt as to which railroads form the shortest route between the points selected, consult your Official Guide of Railways, as explained below, and select the railroads whose schedules give the shortest distance between these points.

For example, the map shows two ways of connecting, by railroad, Indianapolis, Ind., and Columbus, Ohio; one way by the Pennsylvania, the other by the Cleveland, Cincinnati, Chicago, & St. Louis. The schedule of the Pennsylvania railroad gives the distance between Indianapolis, Ind., and Columbus, Ohio, as 181 miles. The schedule of the Cleveland, Cincinnati, Chicago, & St. Louis railroad gives the distance as 185.1 miles. By comparing these results, it is readily seen that the first route is the shorter and should be the one selected.

Having written the names of the railroads forming the shortest route between the two points selected, write in your notebook, one under the other, the junction points as they appear on the map. On the same line with each junction point, write the name of the connecting railroad or railroads at that point. Continue in this manner until you have connected, by railroad, all the prominent cities, one with the other. By this method, you will have the entire map in the form of question and answer.

You should procure a notebook that you can conveniently carry in your pocket, size about 4½ inches by 7 inches. This notebook should be carried about with you and studied at all times when opportunity offers. Be careful in doing this work to consult the map and Instruction Paper, in order that you may make no mistakes, and, finally, after completing this work, answer the questions at the end of this Paper without any assistance, and send the answers to us for correction.

FORM OF NOTEBOOK

Chicago, Ill., to Madison, Wis.

Chicago & Northwestern from Chicago, Ill., to Madison, Wis.

Junction Points	Connecting Railroads

9. Answering Examination Questions.—When answering questions in the subject of Transportation, write in full the names of all railroads, and give the name of the state in which each junction point is located, as many states have junction points of the same name. If more than one railroad is required to connect two cities given in a question, always give the point of connection between the two railroads.

Example.—Name the railroad or railroads forming the shortest route between Marion, Ohio, and Portsmouth, Ohio.

Answer.—The Pennsylvania from Marion, Ohio, to Columbus, Ohio, and the Norfolk & Western from Columbus, Ohio, to Portsmouth, Ohio.

TRANSPORTATION

(TENTH DIVISION)

RAILWAY MAIL SERVICE

INTRODUCTION

1. To prepare for an examination for clerk in the **railway mail service,** it is necessary to be thoroughly familiar with the subject of **Transportation.** This subject is not only a very important one in the examination before the Civil Service Commission, but the knowledge obtained from studying it will be of material benefit after you have entered the service, as you will be examined in it from time to time. For this reason, we have made the instruction in this subject particularly thorough so as to fit you for your work after appointment as well as for the examination. The tenth railway mail division comprises the states of Wisconsin, northern peninsula of Michigan, Minnesota, North Dakota, Montana, and South Dakota, excluding the southwestern part, called the Black Hills district.

2. **Outline of Work.**—To acquire a thorough knowledge of Transportation, you will be required to study this Instruction Paper, a map of your railway mail division, and the Official Guide of Railways.

The Instruction Paper contains a list of the railroads in your division arranged in alphabetical order. The names that are given are the names of the railroad systems and not the names of the roads comprising the system. Following

Copyrighted by International Textbook Company. All rights reserved

the list of railroads is a complete summary of each railroad line and all its branch lines. This summary also contains a complete list of the junction points between these terminal points and the connecting railroads at each junction point and at the terminals. The stations after which are printed the words "End of line" or "End of branch" are terminal points of main lines or branch lines; if they are junction points, the name of another railroad is printed under the words "End of line" or "End of branch."

The map that you are to use contains all terminal points, junction points, and the railroads entering them. The relative importance of each station, with regard to population, is distinguished by the following characters: The first character ○ represents towns with not more than 5,000 inhabitants; the second ◉, those with 5,000 to 25,000 inhab-

○ Not over 5,000 Inhabitants
◉ Not over 25,000 Inhabitants
◎ Not over 100,000 Inhabitants
◉ Over 100,000 Inhabitants
State Capitals

itants; the third ◎, cities having between 25,000 and 100,000 inhabitants; the fourth ◉, cities of 100,000 inhabitants and over, and the last ★, the state capitals.

The Official Guide of Railways will be found of great advantage. It contains a general railroad map of all the railroads of the United States as well as complete individual maps of the more prominent ones; an alphabetical list of all railroads, which gives an index to the map and schedule of each; and a list of the old and the new names of railroads and stations that have recently been changed. At the end of the book will be found a complete alphabetical list of all railroad stations in the United States, showing on what railroad or railroads each station is situated.

3. **Terms Used.**—A **junction point** is the place (city, town, or station) where two or more railroads (using separate tracks) enter, meet, or cross, or it is a place (city, town, or station) from which branch lines of a system diverge. Butte, Mont., situated on the Butte, Anaconda, & Pacific, Great Northern,

Northern Pacific, and Oregon Short Line railroads, is an example of the first kind; and Hardwick, Minn., is an example of the second.

A **trunk line** is the main line of a large railroad system having numerous branch lines; for example, the Chicago, Burlington, & Quincy, which has branches at Edgemont, S. Dak., and Tolucca, Mont.

By the **shortest route** is meant either the shortest actual distance or the shortest time distance between two points; in this work, we will consider the shortest distance as the shortest route. The information for either definition, however, can readily be found in the Official Guide of Railways, which contains a schedule of each railroad giving the actual distance and the time distance between stations. For example, you will find from the schedule of the Great Northern railroad that the actual distance between St. Paul, Minn., and Fargo, N. Dak., is 242 miles and that the time distance is 7 hours and 22 minutes.

4. **Care of the Map.**—So that the map may always present a smooth surface, it should be mounted on a piece of heavy cardboard. This will preserve the map and prevent its being torn.

Proceed in the following manner to mount the map:

Materials Required.—Good liquid glue or mucilage, a small brush, a dry cloth, a sheet of paper slightly larger than the map, and a piece of cardboard somewhat larger than the sheet of paper. First, unfold the map and lay it flat on the cardboard with the wrong side up and smooth out the creases as best you can with your thumb nail. Next fold down over the edge of the cardboard about $\frac{1}{2}$ inch of the upper and lower edges of the map; apply the glue with the brush to the folded edges only. Then reverse the map and place over it a blank sheet of paper and smooth it from the center toward the top and bottom edges with the dry cloth, pressing down the glued edges until they are sufficiently dry to adhere to the cardboard at every point.

HOW TO STUDY

5. Order of Study.—The study of this subject should be conducted as follows: First, tracing the map; second, learning the junction points and the connecting railroads at them; and third, compiling a notebook to contain the railroad routes between prominent cities and all the junction points on these routes, and the connecting railroads at these junction points.

6. Tracing the Map.—Stretch over the map a piece of tracing linen with the dull side up. Tack both the map and the tracing linen to a table or a light planed board by means of eight thumbtacks. Trace with a sharpened, soft, black pencil the boundary of your division, then the boundary lines of each state in the division. Indicate, on the tracing, with a character similar to the one used on the map, the beginning and the terminus of the first railroad, the Abbotsford & North Eastern, which appears on page 9 of this Instruction Paper; for example, indicate the location of Abbotsford, Wis., and Athens, Wis. Memorize the connecting railroads at each terminal point as you indicate it on the tracing. Mark the names of these terminal points in the same position that they appear on the map, and then draw the line of the railroad between these terminal points. Next, mark on the tracing the location of the beginning and terminus of the second railroad, the Ahnapee & Western. As before, with a black-lead pencil, draw the line of this railroad between the terminal points so indicated. Next, indicate the beginning and terminus of the Ann Arbor railroad between Toledo, Ohio, and Frankfort, Mich. Then, with the black-lead pencil, mark on the tracing with a character similar to the one on the map the location of each junction point, printed on page 10, between these terminal points. Mark the names on these junction and terminal points in the same position they appear on the map and memorize the names of the connecting railroads at each junction and terminal point as you indicate them on the tracing. Next, draw with a different-colored pencil the line of this railroad between the junction points

indicated on the tracing. Proceed in the same manner with the Arcadia & Betsey River railroad and so continue until you have drawn on the tracing all the railroads comprising this division; the result will be that you will have produced a facsimile of the map that you are studying. Six pencils of different color will be sufficient for this work, since a solid line of one color can represent one railroad and a dotted line of the same color can represent another railroad.* It is not necessary to use different-colored pencils on such small railroads as the Abbotsford & North Eastern, Ahnapee & Western, and Au Sable & Northwestern railroads as black will do as well. Wherever the name of a railroad is marked on the map, mark it with black pencil on the tracing. This exercise will be of great assistance to you and will impress on your mind the general direction of each railroad system and its branches as well as the junction points and connecting railroads at them; in fact, it should give you a mental picture of the map of your entire division.

7. Junction Points and Connecting Railroads.—Begin at page 9 of this Instruction Paper, and study the beginning points, junction points, and terminals of each railroad and each of its branches, also of the connecting railroads at each of these points; study these junction points and connecting railroads thoroughly. Do not leave one railroad until you can name, without referring to the book, the beginning and terminus of its main line and its branches, every junction point on it, and the connecting railroads at each of the junction points. After you have accomplished this with the first road, take up the second and then the third, and continue thus until you have finished the entire list. You should conduct this study slowly and systematically and, from time to time, should review from the beginning, so that what you have studied will remain fresh in your memory.

8. Compiling the Notebook.—The object of compiling a notebook is to make you familiar with the manner of

*The tracing linen, thumbtacks, and colored pencils can be purchased of the Technical Supply Company, of Scranton, Pa.

answering questions on Transportation. You should select two important cities of your division and find them on your map. Next follow on the map the railroad or railroads forming the shortest route between them and write the names of the railroads in your notebook. If you are in doubt as to which railroads form the shortest route between the points selected, consult your Official Guide of Railways, as explained below, and select the railroads whose schedules give the shortest distance between these points.

For example, the map shows two ways of connecting by railroad, Duluth, Minn., and Grand Forks, N. Dak., namely the Great Northern and the Northern Pacific railroads. The schedule of the Great Northern railroad gives the distance between Duluth, Minn., and Grand Forks, N. Dak., as 297 miles. The schedule of the Northern Pacific gives the distance as 301 miles. By comparing these results, it is readily seen that the first route is the shorter and should be the one selected.

Having written the names of the railroads forming the shortest route between the two points selected, write in your notebook, one under the other, the junction points as they appear on the map. On the same line with each junction point, write the name of the connecting railroad or railroads at that point. Continue in this manner until you have connected, by railroad, all the prominent cities, one with the other. By this method, you will have the entire map in the form of question and answer.

You should procure a notebook that you can conveniently carry in your pocket, size about 4½ inches by 7 inches. This notebook should be carried about with you and studied at all times when opportunity offers. Be careful in doing this work and consult the map and Instruction Paper, in order that you may make no mistakes, and finally, after completing this work, answer the questions at the end of this Paper without any assistance, and send the answers to us for correction.

FORM OF NOTEBOOK

Dubuque, Iowa, to St. Paul, Minn.

Chicago, Milwaukee, & St. Paul from Dubuque, Iowa, to St. Paul, Minn.

Junction Points	Connecting Railroads
Dubuque, Iowa	C., B., & Q.
	C. Gt. W.
	Ill. Cent.
Turkey River Jc., Iowa	C., M., & St. P.
McGregor, Iowa	C., M., & St. P.
Waukon Jc., Iowa	C., M., & St. P.
Peno, Minn.	C., M., & St. P.
La Crescent, Minn.	C., M., & St. P.
Winona, Minn.	C. & N. W.
	C., B., & Q.
	C. Gt. W.
	C., M., & St. P.

Wabasha, Minn.	C. M., & St. P.
Red Wing, Minn.	C., M., & St. P.
	C. Gt. W.
Cannon Jc., Minn.	C., M., & St. P.
Hastings, Minn.	C., M., & St. P.
St. Paul, Minn.	C. & N. W.
	C., B., & Q.
	C. Gt. W.
	C., M., & St. P.
	C., R. I., & P.
	Gt. No.
	Minn. & St. L.
	M., St. P., & S. Ste. M.
	No. Pac.
	Wis. Cent.

9. **Answering Examination Questions.**—When answering questions in the subject of Transportation, write in full the names of all railroads, and give the name of the state in which each junction point is located, as many states have junction points of the same name. If more than one railroad is required to connect two cities given in a question, always give the point of connection between the two railroads.

Example.—Name the railroad or railroads forming the shortest route between St. Paul, Minn., and Duluth, Minn.

Answer.—The Northern Pacific from St. Paul, Minn., to Duluth, Minn.

LIST OF RAILROADS AND ABBREVIATIONS FOR THEM

Name of Railroad	Abbreviations
Abbotsford & North Eastern	A. & N. E.
Ahnapee & Western	A. & W.
Ann Arbor	Ann Arbor
Arcadia & Betsey River	A. & B. R.
Au Sable & Northwestern	A. S. & N. W.
Basin & Elliston	B. & E.
Bayfield Transfer	B. T.
Big Falls	B. F.
Bismarck, Washburn, & Great Falls	See Minneapolis, St. Paul, & Sault Ste. Marie
Blaney & Southern	B. & S.
Boyne City, Gaylord, & Alpena	B. C., G., & A.
Burlington & Missouri River	See Chicago, Burlington, & Quincy
Butte, Anaconda, & Pacific	B., A., & P.
Canadian Northern	Can. Nor.
Chicago, Burlington, & Quincy	C., B., & Q.
Chicago Great Western	C. Gt. W.
Chicago, Kalamazoo, & Saginaw	C., K., & S.
Chicago, Milwaukee, & St. Paul	C., M., & St. P.
Chicago, Rock Island, & Pacific	C., R. I., & P.
Chicago, St. Paul, Minneapolis, & Omaha	C., St. P., M., & O.
Chicago & Lake Superior	C. & L. S.
Chicago & Northwestern	C. & N. W.
Cincinnati Northern	Cin. No.
Cleveland, Cincinnati, Chicago, & St. Louis	C., C., C., & St. L.
Copper Range	C. R.
Dakota Pacific	D. P.
Detroit & Charlevoix	D. & C.
Detroit & Mackinac	D. & M.
Detroit Southern	D. S.
Detroit, Toledo, & Milwaukee	D., T., & M.
Duluth & Iron Range	D. & I. R.
Duluth, South Shore, & Atlantic	D., S. S., & A.
Duluth, Missabe, & Northern	D., M., & N.
Duluth, Virginia, & Rainy Lake	D., V., & R. L.
Dunbar & Wausaukee	D. & W.
East Jordan & Southern	E. J. & S.
Escanaba & Lake Superior	E. & L. S.
Fairchild & Northeastern	F. & N. E.
Farmers Grain & Shipping Company	F. G. & S. Co.
Grand Rapids & Indiana	G. R. & I.
Grand Trunk	Gd. Tk.
Great Northern	Gt. No.
Green Bay & Western	G. B. & W.
Hawthorne, Nebagamon, & Superior	H., N., & S.
Hazelhurst & Southeastern	H. & S. E.
Hillsboro & Northeastern	H. & N. E.
Illinois Central	Ill. Cent.
Indiana, Illinois, & Iowa	I., I., & I.
Kewaunee, Green Bay, & Western	K., G. B., & W.
Lake Shore & Michigan Southern	L. S. & M. So.

Name of Railroad	Abbreviations
Lake Superior & Ispheming	L. S. & I.
Laona & Northern	L. & N.
Manistee & Grand Rapids	M. & G. R.
Manistee & Luther	M. & L.
Manistee & Northeastern	M. & N. E.
Manistique	Man.
Manistique, Marquette, & Northern	M., M., & N.
Marinette, Tomahawk, & Western	M., T., & W.
Marquette & Southeastern	M. & S. E.
Mason & Oceana	M. & O.
Mattoon	Mat.
Mesabe Southern	Mes. Sc.
Michigan Central	Mich. Cent.
Mineral Range	Min. Ran.
Minneapolis & Rainy River	M. & R. R.
Minneapolis & St. Louis	Minn. & St. L.
Minneapolis, St. Paul, & Ashland	M., St. P., & A.
Minneapolis, St. Paul, & Sault Ste. Marie	M., St. P., & S. Ste. M.
Minnesota & International	Minn. & Int.
Minnesota & North Wisconsin	Minn. & N. Wis.
Montana	Mont.
Munising	Mun.
Northern Pacific	No. Pac.
Northwestern Line	See Chicago & Northwestern
Oregon Short Line	Ore. S. L.
Pere Marquette	Pere Marq.
Pontiac, Oxford, & Northern	P., O., & No.
Stanley, Merrill, & Phillips	S., M., & P.
Wabash	Wab.
Washburn & Northwestern	W. & N.
West Range	W. R.
Wisconsin Central	Wis. Cent.
Wisconsin & Michigan	Wis. & Mich.
Wyoming & Missouri River	Wyo. & Mo. Riv.
Yellowstone Park	See Northern Pacific

ABBOTSFORD & NORTH EASTERN

Abbotsford, Wis., to Athens, Wis.

Junction Points	Connecting Railroads
Abbotsford, Wis.	End of line
	Wisconsin Central
Athens, Wis.	End of line

AHNAPEE & WESTERN

Casco Jc., Wis., to Sturgeon Bay, Wis.

Junction Points	Connecting Railroads
Casco Jc., Wis.	End of line
	Kewaunee, Green Bay, & Western
Sturgeon Bay, Wis.	End of line
	Ann Arbor

ANN ARBOR

Toledo, Ohio, to Frankfort, Mich.

Junction Points	Connecting Railroads
Toledo, Ohio	End of line
	Ann Arbor
	Cincinnati, Hamilton, & Dayton
	Cleveland, Cincinnati, Chicago, & St Louis
	Detroit & Toledo Shore Line
	Detroit, Toledo, & Milwaukee
	Hocking Valley
	Lake Shore & Michigan Southern
	Michigan Central
	Ohio Central
	Pennsylvania
	Pere Marquette
	Toledo & Western
	Toledo, St. Louis, & Western
	Wabash
	Wheeling & Lake Erie
Federman, Mich.	Lake Shore & Michigan Southern
Dundee, Mich.	Detroit Southern
	Detroit, Toledo, & Milwaukee
Milan, Mich.	Wabash
Pittsfield, Mich.	Lake Shore & Michigan Southern
Ann Arbor, Mich.	Michigan Central
Hamburg, Mich.	Grand Trunk
Lakeland, Mich.	Grand Trunk
Annpere, Mich.	Pere Marquette
Durand, Mich.	Grand Trunk
Corunna, Mich.	Grand Trunk
Owosso, Mich.	Grand Trunk
	Michigan Central
Ashley, Mich.	Grand Trunk
Alma, Mich.	Pere Marquette
Mount Pleasant, Mich.	Pere Marquette
Clare, Mich.	Pere Marquette
Farwell, Mich.	Pere Marquette
Cadillac, Mich.	Grand Rapids & Indiana
Copemish, Mich.	Arcadia & Betsey River
	Manistee & Northeastern
Thompsonville, Mich.	Pere Marquette
Frankfort, Mich.	End of line

ARCADIA & BETSEY RIVER

Copemish, Mich., to Arcadia, Mich.

Junction Points	Connecting Railroads
Copemish, Mich.	End of line
	Ann Arbor
	Manistee & Northeastern
Henry, Mich.	Pere Marquette
Arcadia, Mich.	End of line

AU SABLE & NORTHWESTERN

Au Sable, Mich., to Comins, Mich.

Junction Points	Connecting Railroads
Au Sable, Mich.	End of line
	Detroit & Mackinac
Comins, Mich.	End of line

BAYFIELD TRANSFER

Bayfield, Wis., to Red Cliff, Wis.

Junction Points	Connecting Railroads
Bayfield, Wis.	End of line
	Chicago, St. Paul, Minneapolis, & Omaha
Red Cliff, Wis.	End of line

BIG FALLS

Hunting, Wis., to Norske, Wis.

Junction Points	Connecting Railroads
Hunting, Wis.	End of line
	Chicago & Northwestern
Junction, Wis.	Big Falls
Norske, Wis.	End of line

Junction, Wis., to Germania, Wis.

Junction, Wis.	Big Falls
Germania, Wis.	End of branch

BASIN & ELLISTON

Basin, Mont., to Elliston, Mont.

Junction Points	Connecting Railroads
Basin, Mont.	End of line
	Great Northern
	Northern Pacific
Elliston, Mont.	End of line
	Northern Pacific

BLANEY & SOUTHERN

Blaney Jc., Mich., to Bear Creek, Mich.

Junction Points	Connecting Railroads
Blaney Jc., Mich.	End of line
	Minneapolis, St. Paul, & Sault Ste. Marie
Bear Creek, Mich.	End of line

BOYNE CITY, GAYLORD, & ALPENA

Boyne Falls, Mich., to Boyne, Mich.

Junction Points	Connecting Railroads
Boyne Falls, Mich.	End of line
	Grand Rapids & Indiana
Boyne, Mich.	End of line

BUTTE, ANACONDA, & PACIFIC

Butte, Mont., to Anaconda, Mont.

Junction Points	Connecting Railroads
Butte, Mont.	End of line
	Great Northern
	Northern Pacific
	Oregon Short Line
Silverbow, Mont.	Northern Pacific
	Oregon Short Line
Durant, Mont.	Northern Pacific
Gregson, Mont.	Northern Pacific
Anaconda, Mont.	End of line

CHICAGO, BURLINGTON, & QUINCY

Chicago, Ill., to Minneapolis, Minn.

Junction Points	Connecting Railroads
Chicago, Ill.	Atchison, Topeka, & Santa Fe
	Baltimore & Ohio
	Chicago & Alton
	Chicago & Eastern Illinois
	Chicago & Northwestern
	Chicago & Western Indiana
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Indianapolis, & Louisville
	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
	Chicago Terminal Transfer
	Cleveland, Cincinnati, Chicago, & St. Louis
	Erie
	Grand Trunk
	Illinois Central
	Lake Shore & Michigan Southern
	Michigan Central
	New York, Chicago, & St. Louis
	Pennsylvania
	Pere Marquette
	Pittsburg, Cincinnati, Chicago, & St. Louis
	Wabash
	Wisconsin Central

Junction Points	Connecting Railroads
Savanna, Ill.	Chicago, Burlington, & Quincy
	Chicago, Milwaukee, & St. Paul
Galena, Ill.	Atchison, Topeka, & Santa Fe
	Fulton County Narrow Gauge
Prairie du Chien, Wis.	Chicago, Milwaukee, & St. Paul
La Crosse, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Green Bay & Western
Onalaska, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Green Bay & Western
Trempealeau, Wis.	Chicago & Northwestern
	Green Bay & Western
Marshland, Wis.	Green Bay & Western
Trevino, Wis.	Chicago, Milwaukee, & St. Paul
St. Paul, Minn.	Chicago & Northwestern
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
	Great Northern
	Minneapolis & St. Louis
	Minneapolis, St. Paul, & Sault Ste. Marie
	Northern Pacific
	Wisconsin Central
Minneapolis, Minn.	End of line
	Chicago & Northwestern
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
	Great Northern
	Minneapolis & St. Louis
	Minneapolis, St. Paul, & Sault Ste. Marie
	Northern Pacific
	Wisconsin Central

Edgemont, S. Dak., to Billings, Mont

Edgemont, S. Dak.	Chicago, Burlington, & Quincy
New Castle, Wyo.	Chicago, Burlington, & Quincy
Toluca, Mont.	Chicago, Burlington, & Quincy
Huntley, Mont.	Northern Pacific
Billings, Mont.	End of line
	Northern Pacific

Edgemont, S. Dak., to Deadwood, S. Dak.

Edgemont, S. Dak.	Chicago, Burlington, & Quincy
Minnekahta, S. Dak.	Chicago, Burlington, & Quincy
Hill City, S. Dak.	Chicago, Burlington, & Quincy
Englewood, S. Dak.	Chicago, Burlington, & Quincy
Deadwood, S. Dak.	End of branch
	Chicago & Northwestern

Minnekahta, S. Dak., to Hot Springs, S. Dak.

Junction Points	Connecting Railroads
Minnekahta, S. Dak.	Chicago, Burlington, & Quincy
Hot Springs, S. Dak.	End of branch Chicago & Northwestern

Hill City, S. Dak., to Keystone, S. Dak.

Hill City, S. Dak.	Chicago, Burlington, & Quincy
Keystone, S. Dak.	End of branch

Englewood, S. Dak., to Spearfish, S. Dak.

Englewood, S. Dak.	Chicago, Burlington, & Quincy
Spearfish, S. Dak.	End of branch

Englewood, S. Dak., to Lead, S. Dak.

Englewood, S. Dak.	Chicago, Burlington, & Quincy
Lead, S. Dak.	End of branch Chicago & Northwestern

Lead, S. Dak., to Deadwood, S. Dak.

Lead, S. Dak.	Chicago, Burlington, & Quincy
Deadwood, S. Dak.	End of branch Chicago & Northwestern

Englewood, S. Dak., to Piedmont, S. Dak.

Englewood, S. Dak.	Chicago, Burlington, & Quincy
Bucks, S. Dak.	Chicago, Burlington, & Quincy
Piedmont, S. Dak.	End of branch Chicago & Northwestern

Bucks, S. Dak., to Este, S. Dak.

Bucks, S. Dak.	Chicago, Burlington, & Quincy
Este, S. Dak.	End of branch

Toluca, Mont., to Cody, Wyo.

Toluca, Mont.	Chicago, Burlington, & Quincy
Cody, Wyo.	End of branch

CHICAGO GREAT WESTERN

McIntire, Iowa, to Minneapolis, Minn.

Junction Points	Connecting Railroads
McIntire, Iowa	Chicago Great Western
Taopi, Minn.	Chicago, Milwaukee, & St. Paul
Hayfield, Minn.	Chicago Great Western
Dodge Center, Minn.	Chicago & Northwestern
Eden, Minn.	Chicago Great Western
Kenyon, Minn.	Chicago, Milwaukee, & St. Paul
Randolph, Minn.	Chicago Great Western Chicago, Milwaukee, & St. Paul
Empire City, Minn.	Chicago, Milwaukee, & St. Paul

Junction Points	Connecting Railroads
St. Paul, Minn.	Chicago & Northwestern
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
	Great Northern
	Minneapolis & St. Louis
	Minneapolis, St. Paul, & Sault Ste. Marie
	Northern Pacific
	Wisconsin Central
Minneapolis, Minn.	End of line
	Chicago & Northwestern
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
	Great Northern
	Minneapolis & St. Louis
	Minneapolis, St. Paul, & Sault Ste. Marie
	Northern Pacific
	Wisconsin Central

Manly, Iowa, to Hayfield, Minn.

Manly, Iowa	Chicago, Rock Island, & Pacific
	Iowa Central
Lyle, Minn.	Chicago, Milwaukee, & St. Paul
	Illinois Central
Austin, Minn.	Chicago, Milwaukee, & St. Paul
Hayfield, Minn.	Chicago Great Western

Osage, Iowa, to Winona, Minn.

Osage, Iowa	End of branch
	Illinois Central
McIntire, Iowa	Chicago Great Western
Leroy, Minn.	Chicago, Milwaukee, & St. Paul
Spring Valley, Minn.	Chicago, Milwaukee, & St. Paul
Simpson, Minn.	Chicago Great Western
Dover, Minn.	Chicago & Northwestern
St. Charles, Minn.	Chicago & Northwestern
Utica, Minn.	Chicago & Northwestern
Minnesota City, Minn.	Chicago & Northwestern
	Chicago, Milwaukee & St. Paul
Winona, Minn.	End of branch
	Chicago & Northwestern
	Chicago, Burlington, & Quincy
	Chicago Great Western
	Chicago, Milwaukee & St. Paul
	Green Bay & Western

Simpson, Minn., to Mankato, Minn.

Simpson, Minn.	Chicago Great Western
Rochester, Minn.	Chicago & Northwestern
Pine Island, Minn.	Chicago & Northwestern

Junction Points	Connecting Railroads
Zumbrota, Minn.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
Red Wing Jc., Minn.	Chicago, Milwaukee, & St. Paul
Randolph, Minn.	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
Northfield, Minn.	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
Faribault, Minn.	Chicago, Milwaukee, & St. Paul
	Chicago, Rock Island, & Pacific
Waterville, Minn.	Minneapolis & St. Paul
Mankato, Minn.	End of branch
	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul

Eden, Minn., to Mantorville, Minn.

Eden, Minn.	Chicago Great Western
Mantorville, Minn.	Chicago & Northwestern

CHICAGO, KALAMAZOO, & SAGINAW

Kalamazoo, Mich., to Woodbury, Mich.

Junction Points	Connecting Railroads
Kalamazoo, Mich.	Grand Rapids & Indiana
	Lake Shore & Michigan Southern
	Michigan Central
Richland Jc., Mich.	Cincinnati Northern
	Michigan Central
Hastings, Mich.	Michigan Central
Woodbury, Mich.	Pere Marquette

CHICAGO, MILWAUKEE, & ST. PAUL

Chicago, Ill., to Champion, Mich.

Junction Points	Connecting Railroads
Chicago, Ill.	Atchison, Topeka, & Santa Fe
	Baltimore & Ohio
	Chicago & Alton
	Chicago & Eastern Illinois
	Chicago & Northwestern
	Chicago & Western Indiana
	Chicago, Burlington, & Quincy
	Chicago Great Western

Ranney, Wis	Chicago & Northwestern
Corliss, Wis	Chicago, Milwaukee, & St. Paul
Milwaukee, Wis	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Grand Trunk
	Pere Marquette
	Wisconsin Central
Plymouth, Wis	Chicago & Northwestern
Hilbert Jc., Wis	Chicago, Milwaukee, & St. Paul
	Wisconsin Central
Forest Jc., Wis	Chicago & Northwestern
Greenbay, Wis	Chicago & Northwestern
	Green Bay & Western
	Kewaunee, Green Bay, & Western
Oconto Jc., Wis	Chicago, Milwaukee, & St. Paul
Stiles Jc., Wis	Chicago & Northwestern
Ellis Jc., Wis	Chicago, Milwaukee, & St. Paul
Wausaukee, Wis	Chicago, Milwaukee, & St. Paul
Pembine, Wis	Minneapolis, St. Paul, & Sault Ste. Marie
Iron Mountain, Mich	Chicago & Northwestern
Channing, Mich	Chicago, Milwaukee, & St. Paul
	Escanaba & Lake Superior
Republic, Mich	Chicago & Northwestern
	Duluth, South Shore, & Atlantic
Champion, Mich	End of line
	Chicago & Northwestern
	Duluth, South Shore, & Atlantic

Rondout, Ill., to Janesville, Wis.

Rondout, Ill	Chicago, Milwaukee, & St. Paul
	Elgin, Joliet, & Eastern
Richmond, Ill	Chicago & Northwestern
Walworth, Wis	Chicago, Milwaukee, & St. Paul
Bardwell, Wis	Chicago, Milwaukee, & St. Paul
Janesville, Wis	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul

Freeport, Ill., to Racine, Wis.

Freeport, Ill	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Illinois Central
Rockton, Ill	Chicago, Milwaukee, & St. Paul
Beloit, Wis	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul

Junction Points	Connecting Railroads
Clinton, Wis.	Chicago & Northwestern
Bardwell, Wis.	Chicago, Milwaukee, & St. Paul
Elkhorn, Wis.	Chicago, Milwaukee, & St. Paul
Burlington, Wis.	Wisconsin Central
Corliss, Wis.	Chicago, Milwaukee, & St. Paul
Racine, Wis.	End of branch
	Chicago & Northwestern

Hilbert, Wis., to Neenah, Wis.

Hilbert, Wis.	Chicago, Milwaukee, & St. Paul
	Wisconsin Central
Menasha, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Wisconsin Central
Neenah, Wis.	End of branch
	Chicago & Northwestern
	Wisconsin Central

Menasha, Wis., to Appleton, Wis.

Menasha, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Wisconsin Central
Appleton, Wis.	End of branch
	Chicago & Northwestern

Oconto Jc., Wis., to Oconto, Wis.

Oconto Jc., Wis.	Chicago, Milwaukee, & St. Paul
Oconto, Wis.	End of branch
	Chicago & Northwestern

Ellis Jc., Wis., to Menominee, Mich.

Ellis Jc., Wis.	Chicago, Milwaukee, & St. Paul
Bagley Jc., Wis.	Wisconsin & Michigan
Marinette, Wis.	Chicago & Northwestern
	Wisconsin & Michigan
Menominee, Mich.	Chicago & Northwestern
	Wisconsin & Michigan

Wausaukee, Wis., to Girard Jc., Wis.

Wausaukee, Wis.	Chicago, Milwaukee, & St. Paul
Girard Jc., Wis.	End of branch
	Dunbar & Wausaukee

Ontonagon, Mich., to Escanaba, Mich.

Ontonagon, Mich.	End of branch
Riddle Jc., Mich.	Mineral Range
Range Jc., Mich.	Copper Range
Sidnaw, Mich.	Duluth, South Shore, & Atlantic
Amasa, Mich.	Chicago & Northwestern
Balsam, Mich.	Chicago & Northwestern
Kelso, Mich.	Chicago, Milwaukee, & St. Paul
Channing, Mich.	Chicago, Milwaukee, & St. Paul
	Escanaba & Lake Superior

Junction Points	Connecting Railroads
Northland, Mich.	Escanaba & Lake Superior
Escanaba, Mich.	End of branch
	Chicago & Northwestern
	Escanaba & Lake Superior

Milwaukee, Wis., to Chamberlain, S. Dak.

Milwaukee, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Grand Trunk
	Pere Marquette
	Wisconsin Central
Duplainville, Wis.	Chicago, Milwaukee, & St. Paul
Watertown, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
Madison, Wis.	Chicago & Northwestern
	Chicago, Milwaukee, & St. Paul
	Illinois Central
Mazomanie, Wis.	Chicago, Milwaukee, & St. Paul
Lone Rock, Wis.	Chicago, Milwaukee, & St. Paul
Woodman, Wis.	Chicago & Northwestern
Wauzeka, Wis.	Chicago, Milwaukee, & St. Paul
Prairie du Chien, Wis.	Chicago, Burlington, & Quincy
	Chicago, Milwaukee, & St. Paul
Beulah, Iowa	Chicago, Milwaukee, & St. Paul
Postville, Iowa	Chicago, Rock Island, & Pacific
Calmar, Iowa	Chicago, Milwaukee, & St. Paul
Jackson Jc., Iowa	Chicago, Milwaukee, & St. Paul
Mason City, Iowa	Chicago & Northwestern
	Chicago Great Western
	Chicago, Milwaukee, & St. Paul
	Iowa Central
	Mason City & Clear Lake
Spencer, Iowa	Chicago, Milwaukee, & St. Paul
	Minneapolis & St. Louis
Rock Valley, Iowa	Chicago, Milwaukee, & St. Paul
Canton, S. D.	Chicago & Northwestern

Aladdin, Wyo.	End of line

TRANSPORTATION

(ELEVENTH DIVISION)

RAILWAY MAIL SERVICE

INTRODUCTION

1. To prepare for an examination for clerk in the **railway mail service,** it is necessary to be thoroughly familiar with the subject of **Transportation.** This subject is not only a very important one in the examination before the Civil Service Commission, but the knowledge obtained from studying it will be of material benefit after you have entered the service, as you will be examined in it from time to time. For this reason, we have made the instruction in this subject particularly thorough so as to fit you for your work after appointment as well as for the examination. The second railway mail division comprises the states of Arkansas, Oklahoma, Indian Territory, Texas, and Louisiana, west of the Mississippi river.

2. **Outline of Work.**—To acquire a thorough knowledge of Transportation, you will be required to study this Instruction Paper, a map of your railway mail division, and the Official Guide of Railways.

The Instruction Paper contains a list of the railroads in your division arranged in alphabetical order. The names that are given are the names of the railroad systems and not the names of the roads comprising the system. Following

Copyrighted by International Textbook Company. All rights reserved

the list of railroads is a complete summary of each railroad mentioned, giving the beginning and terminus of its main line and all its branch lines. This summary also contains a complete list of the junction points between these terminal points and the connecting railroads at each junction point and at the terminals. The stations after which are printed the words "End of line" or "End of branch" are terminal points of main lines or branch lines; if they are junction points, the name of another railroad is printed under the words "End of line" or "End of branch."

The map that you are to use contains all terminal points, junction points, and the railroads entering them. The relative importance of each station, with regard to population, is distinguished by the following characters: The first character ○ represents towns with not more than 5,000 inhabitants; the second ◉, those with 5,000 to 25,000 inhab-

itants; the third ◎, cities having between 25,000 and 100,000 inhabitants; the fourth ◉, cities of 100,000 inhabitants and over; and the last ★, the state capitals.

The Official Guide of Railways will be found of great advantage. It contains a general railroad map of all the railroads of the United States, as well as complete individual maps of the more prominent ones; an alphabetical list of all railroads, which gives an index to the map and schedule of each; and a list of the old and new names of railroads and stations that have recently been changed. At the end of the book will be found a complete alphabetical list of all railroad stations in the United States, showing on what railroad or railroads each station is situated.

3. **Terms Used.**—**A junction point** is the place (city, town, or station) where two or more railroads (using separate tracks) enter, meet, or cross; or it is a place (city, town, or station) from which branch lines of a system diverge. Dallas, Tex., situated on the Atchison, Topeka, & Santa Fe; Chicago,

Rock Island, & Pacific; Houston & Texas Central; Missouri, Kansas, & Texas; and St. Louis & Southwestern railroads is an example of the first kind; and Texhoma, Okla., on the Chicago, Rock Island, & Pacific, is an example of the second.

A **trunk line** is the main line of a large railroad system having numerous branch lines; for example, the Houston & Texas Central, which has branches at Hempstead, Tex., Fairland, Tex., and Garrett, Tex.

By the **shortest route** is meant either the shortest actual distance or the shortest time distance between two points; in this work we will consider the shortest distance as the shortest route. The information for either definition, however, can be readily found in the Official Guide of Railways, which contains a schedule of each railroad giving the actual distance and the time distance between stations. For example, you will find from the schedule of the Southern Pacific railroad that the actual distance between El Paso, Tex., and San Antonio, Tex., is 624 miles and that the time distance is 12 hours.

4. Care of the Map.—So that the map may always present a smooth surface, it should be mounted on a piece of heavy cardboard. This will preserve the map and prevent its being torn.

Proceed to mount the map in the following manner:

Materials Required.—Good liquid glue or mucilage, a small brush, a dry cloth, a sheet of paper slightly larger than the map, and a piece of cardboard somewhat larger than the sheet of paper. First, unfold the map and lay it flat on the cardboard with the wrong side up and smooth out the creases as best you can with your thumb nail. Next fold down over the edge of the cardboard about $\frac{1}{2}$ inch of the upper and lower edges of the map; apply the glue with the brush to the folded edges only. Then reverse the map and place over it the blank sheet of paper and smooth it from the center toward the top and bottom edges with the dry cloth, pressing down the glued edges until they are sufficiently dry to adhere to the cardboard at every point.

HOW TO STUDY

5. Order of Study.—The study of this subject should be conducted as follows: First, tracing the map; second, learning the junction points and the connecting railroads at them; and third, compiling a notebook to contain the railroad routes between prominent cities and all the junction points on these routes, and the connecting railroads at these junction points.

6. Tracing the Map.—Stretch over the map a piece of tracing linen with the dull side up. Tack both the map and the tracing linen to a table or a light planed board by means of eight thumbtacks. Trace with a sharpened, soft, black pencil the boundary of your division, then the boundary lines of each state in the division. Indicate, on the tracing, the beginning and terminus of the first railroad, the Angelina & Neches River, that appears on page 11 of this Instruction Paper; for example, indicate the location of Manton, Tex., and Keltys, Tex. Next, with a black-lead pencil, mark on the tracing, with a character similar to the one on the map, the location of these terminal points. Memorize the connecting railroads at each as you indicate them on the tracing. Mark the names of these terminal points in the same position that they appear on the map. Next draw with a black pencil the line of this railroad between the terminal points indicated on the tracing. Next mark, on the tracing, the location of the beginning and terminus of the second railroad, the Arkansas Central, that appears on page 11; indicate the location of Fort Smith, Ark., and Paris, Ark., and with a black-lead pencil, mark on the tracing, with a character similar to the one on the map, the location of these terminals. Memorize the connecting railroads at each terminal point as you indicate them on the tracing. Mark the names of these terminal points in the same position that they appear on the map. Next draw, with a black pencil, the line of this railroad between the terminal points indicated on the tracing. Proceed in the same manner with the Arkansas Midland, Arkansas Southern, Arkansas

Southeastern, Arkansas Southwestern, Arkansas Western, and the Arkansas & Louisiana. Next indicate, on the tracing, the beginning and terminus of the main line of the Atchison, Topeka, & Santa Fe railroad, between Galveston, Tex., and Temple, Tex. Next, with a black-lead pencil, mark on the tracing, with a character similar to the one on the map, the location of each junction point printed on page 13 between these terminal points. Memorize the connecting railroads at each junction point as you indicate them on the tracing. Mark the names of these junctions in the same positions that they appear on the map. Next draw, with a different-colored pencil, the line of this railroad between the junction points indicated on the tracing. Mark on the tracing the beginning and terminus of the first branch of the Atchison, Topeka, & Santa Fe railroad that you will find on page 13; for example, Alvin, Tex., and Houston, Tex. Then indicate on the tracing, with a character similar to the one on the map, the location of each junction point between these points and mark the names in the same position that they appear on the map. As before, memorize the connecting railroads at each junction point and terminal, then draw, with the same colored pencil that you used for marking the main line, the line of this branch between the junction points indicated. Continue this operation until you have traced the entire system. Indicate the next railroad and continue in this manner until you have drawn, on the tracing, all the railroads comprising your division; the result will be that you will have produced a facsimile of the map that you are studying. Six pencils of different color will be sufficient for this work, since a solid line of one color can represent one railroad and a dotted line of the same color can represent another railroad.* It is not necessary to use different-colored pencils on such small railroads as the Arkansas Central, Arkansas Midland, Arkansas Southern, Arkansas Southeastern, Arkansas Southwestern, Arkansas Western, and the Arkansas & Louisiana, as black will do as well.

*The tracing linen, thumbtacks, and colored pencils can be purchased of the Technical Supply Company, of Scranton, Pa.

Wherever the name of a railroad is marked on the map, mark it with black pencil on the tracing. This exercise will be of great assistance to you and will impress on your mind the general direction of each railroad system and its branches, as well as the junction points and connecting railroads at them; in fact, it should give you a mental picture of the map of your entire division.

7. Junction Points and Connecting Railroads.—Begin at page 11 of this Instruction Paper, and study the beginning points, junction points, and terminals of each railroad and each of its branches, also of the connecting railroads at each of these points; study these junction points and connecting railroads thoroughly. Do not leave one railroad until you can name, without referring to the book, the beginning and terminus of its main line and its branches, every junction point on it, and the connecting railroads at each of the junction points. After you have accomplished this with the first road, take up the second and then the third, and continue thus until you have finished the entire list. You should conduct this study slowly and systematically and, from time to time, should review from the beginning, so that what you have studied will remain fresh in your memory.

8. Compiling the Notebook.—The object of compiling a notebook is to make you familiar with the manner of answering questions on Transportation. You should select two important cities of your division and find them on your map. Next, follow on the map the railroad or railroads forming the shortest route between them and write the names of the railroads in your notebook. If you are in doubt as to which railroads form the shortest route between the points selected, consult your Official Guide of Railways, as explained below, and select the railroads whose schedules give the shortest distance between these points.

For example, the map shows two ways of connecting, by railroad, New Orleans, La., and Dallas, Tex. One way is by the Texas & Pacific, and the other by the Southern Pacific. The schedule of the Texas & Pacific gives the distance between

these points as 514.7 miles and the schedule of the Southern Pacific gives the distance between the same points as 567 miles. By comparing these results, it is readily seen that the first route is the shorter and should be the one selected.

Having written the names of the railroads forming the shortest route between the two points selected, write in your notebook, one under the other, the junction points as they appear on the map. On the same line with each junction point, write the name of the connecting railroad or railroads at that point. Continue in this manner until you have connected, by railroad, all the prominent cities, one with the other. By this method, you will have the entire map in the form of question and answer.

You should procure a notebook that you can conveniently carry in your pocket, size about 4½ inches by 7 inches. This notebook should be carried about with you and studied at all times when opportunity offers. Be careful in doing this work to consult the map and Instruction Paper, in order that you may make no mistakes, and finally, after completing this work, answer the questions at the end of this Paper without any assistance, and send the answers to us for correction.

FORM OF NOTEBOOK

New Orleans, La., to Dallas, Tex.

Texas & Pacific

Junction Points	Connecting Railroads
New Orleans, La.	E. La.
	Ill. Cent.

	H. & T. Cent.
	M., K., & T.
	St. L. S. W.

9. Answering Examination Questions.—When answering questions on the subject of Transportation, write, in full, the names of all railroads, and give the name of the state in which each junction point is located, as many states have junction points of the same name. If more than one railroad is required to connect two cities given in a question, always give the point of connection between the two railroads.

Example.—Name the railroad or railroads forming the shortest route between Shreveport, La., and San Antonio, Tex.

Answer.—The Gulf Air Line from Shreveport, La., to Houston, Tex., and the Southern Pacific from Houston, Tex., to San Antonio, Tex.

LIST OF RAILROADS AND ABBREVIATIONS FOR THEM

Name of Railroad	Abbreviations
Angelina & Neches River	A. & N. R.
Arkansas & Louisiana	Ark. & La.

Name of Railroad	Abbreviations
Arkansas Central	Ark. Cent.

JUNCTION POINTS AND CONNECTING RAILROADS

ANGELINA & NECHES RIVER

Manton, Tex., to Keltys, Tex.

Junction Points	Connecting Railroads
Manton, Tex	Southern Pacific
Keltys, Tex	St. Louis Southwestern

ARKANSAS CENTRAL

Fort Smith, Ark., to Paris, Ark.

Junction Points	Connecting Railroads
Fort Smith, Ark	Arkansas Central
	Fort Smith & Western
	Kansas City Southern
	Midland Valley
	St. Louis & San Francisco
	St. Louis, Iron Mountain, & Southern
Paris, Ark	End of line

ARKANSAS MIDLAND

Helena, Ark., to Clarendon, Ark.

Junction Points	Connecting Railroads
Helena, Ark	St. Louis, Iron Mountain, & Southern
	Yazoo & Mississippi Valley
Pine City, Ark	Arkansas Midland
Clarendon, Ark	End of line
	St. Louis Southwestern

Pine City, Ark., to Brinkley, Ark.

Junction Points	Connecting Railroads
Pine City, Ark.	Arkansas Midland
Brinkley, Ark.	End of branch
	Chicago, Rock Island, & Pacific
	St. Louis Southwestern

ARKANSAS SOUTHERN

Eldorado, Ark., to Winnfield, La.

Junction Points	Connecting Railroads
Eldorado, Ark.	El Dorado & Bastrop
	St. Louis, Iron Mountain, & Southern
Cornie, Ark.	Arkansas Southern
Randolph, La.	Arkansas Southeastern
D'Arbonne Jc., La.	D'Arbonne Valley
Ruston, La.	Queen & Crescent
Winnfield, La.	Louisiana & Arkansas
	Louisiana Railway & Navigation Co.

Cornie, Ark., to Wesson, Ark.

Cornie, Ark.	Arkansas Southern
Wesson, Ark.	End of branch

ARKANSAS SOUTHEASTERN

Randolph, La., to Luter, La.

Junction Points	Connecting Railroads
Randolph, La.	Arkansas Southern
Luter, La.	End of branch

ARKANSAS SOUTHWESTERN

Smithton, Ark., to Pike, Ark.

Junction Points	Connecting Railroads
Smithton, Ark.	St. Louis, Iron Mountain, & Southern
Gurdon Jc., Ark.	Arkansas Southwestern
Pike, Ark.	End of line

Gurdon Jc., Ark., to Gagetown, Ark.

Gurdon Jc., Ark.	Arkansas Southwestern
Gurdon, Ark.	St. Louis, Iron Mountain, & Southern
Gagetown, Ark.	End of branch

Daleville, Ark., to Camptown, Ark.

Daleville, Ark.	St. Louis, Iron Mountain, & Southern
Camptown, Ark.	End of line

ARKANSAS WESTERN

Heavener, Ind. T., to Waldron, Ark.

Junction Points	Connecting Railroads
Heavener, Ind. T.	Kansas City Southern
Waldron, Ark.	End of line

ARKANSAS & LOUISIANA

Hope, Ark., to Nashville, Ark.

Junction Points	Connecting Railroads
Hope, Ark.	Louisiana & Arkansas
	St. Louis & San Francisco
	St. Louis, Iron Mountain, & Southern
Ozam, Ark.	Arkansas & Louisiana
Nashville, Ark.	End of line

ATCHISON, TOPEKA, & SANTA FE

Galveston, Tex., to Temple, Tex.

Junction Points	Connecting Railroads
Galveston, Tex.	Atchison, Topeka, & Santa Fe
	Galveston, Houston, & Henderson

Luna, Ark.	End of line
	Connects with Mississippi River Steamers
Lake Village, Ark.	St. Louis, Iron Mountain, & Southern
Montrose, Ark.	St. Louis, Iron Mountain, & Southern
Crossett, Ark.	End of line

MISSOURI, OKLAHOMA, & GULF

Wagoner, Ind. T., to Dustin, Ind. T.

Junction Points	Connecting Railroads
Wagoner, Ind. T.	Missouri, Kansas, & Texas
	St. Louis, Iron Mountain, & Southern
Corretta, Ind. T.	St. Louis, Iron Mountain, & Southern
Wybark, Ind. T.	Missouri, Kansas, & Texas
Muskogee, Ind. T.	End of track
	Midland Valley
	Missouri, Kansas, & Texas
	St. Louis & San Francisco
Dustin, Ind. T.	Under construction from Muskogee to this point
	Fort Smith & Western

MOSCOW, CAMDEN, & SAN AUGUSTINE

Moscow, Tex., to Camden, Tex.

Junction Points	Connecting Railroads
Moscow, Tex.	Gulf Air Line
Camden, Tex.	End of line

NATIONAL RAILWAY OF MEXICO

Corpus Christi, Tex., to Laredo, Tex.

Junction Points	Connecting Railroads
Corpus Christi, Tex.	San Antonio & Aransas Pass
	St. Louis, Brownsville, & Mexico
Robstown, Tex.	St. Louis, Brownsville, & Mexico
Alice, Tex.	San Antonio & Aransas Pass
Laredo, Tex.	International & Great Northern
	Rio Grande & Eagle Pass

NEW ORLEANS & NORTHWESTERN

Vidalia, La., to White, La.

Junction Points	Connecting Railroads
Vidalia, La.	Natchez & Western
Concordia, La.	Natchez & Western
Clayton Jc., La.	St. Louis, Iron Mountain, & Southern
Rayville, La.	Queen & Crescent
Collinston, La.	St. Louis, Iron Mountain, & Southern
White, La.	End of line
	El Dorado & Bastrop

NEW ORLEANS, NATALBANY, & NATCHEZ

Natalbany, La., to Mayer, La.

Junction Points	Connecting Railroads
Natalbany, La.	Illinois Central
Mayer, La.	End of line

NEW ORLEANS, FORT JACKSON, & GRAND ISLE

New Orleans, La., to Buras, La.

Junction Points	Connecting Railroads
New Orleans, La.	East Louisiana
	Illinois Central
	Louisiana Southern
	Louisville & Nashville
	New Orleans, Fort Jackson, & Grand Isle
	Queen & Crescent
	Southern Pacific
	Texas & Pacific
	Yazoo & Mississippi Valley
Gretna, La.	Southern Pacific
	Texas & Pacific
Buras, La.	End of line

NATCHEZ & WESTERN

Vidalia, La., to Jonesville, La.

Junction Points	Connecting Railroads
Vidalia, La.	New Orleans & Northwestern
Concordia, La.	New Orleans & Northwestern
Jonesville, La.	End of line

NATCHEZ, URANIA, & RUSTON

Urania, La., to Hinton, La.

Junction Points	Connecting Railroads
Urania, La.	St. Louis, Iron Mountain, & Southern
Hinton, La.	End of line

NOBLE LAKE & SOUTHERN

Noble Lake, Ark., to Ladd, Ark.

Junction Points	Connecting Railroads
Noble Lake, Ark.	St. Louis, Iron Mountain, & Southern
Ladd, Ark.	End of line

OLD RIVER & KISSATCHIE

Old River, La., to Jerguson, La.

Junction Points	Connecting Railroads
Old River, La.	Texas & Pacific
Jerguson, La.	End of line

ORANGE & NORTHWESTERN

Orange, Tex., to Buna, Tex.

Junction Points	Connecting Railroads
Orange, Tex.	Southern Pacific
Lemon, Tex.	Kansas City Southern
Buna, Tex.	Atchison, Topeka, & Santa Fe

PARAGOULD & MEMPHIS

Paragould, Ark., to Manila, Ark.

Junction Points	Connecting Railroads
Paragould, Ark.	St. Louis, Iron Mountain, & Southern St. Louis Southwestern
Cardwell, Mo.	St. Louis Southwestern
Manila, Ark.	Jonesboro, Lake City, & Eastern

PERLA NORTHERN

Gifford, Ark., to Whittington, Ark.

Junction Points	Connecting Railroads
Gifford, Ark.	St. Louis, Iron Mountain, & Southern
Perla, Ark.	St. Louis, Iron Mountain, & Southern
Lonsdale, Ark.	Little Rock & Hot Springs Western
Whittington, Ark.	End of branch

PINE BLUFF & WESTERN

Pine Bluff, Ark., to Benton, Ark.

Junction Points	Connecting Railroads
Pine Bluff, Ark.	St. Louis, Iron Mountain, & Southern
	St. Louis Southwestern
Benton, Ark.	Chicago, Rock Island, & Pacific
	Little Rock & Hot Springs Western
	St. Louis, Iron Mountain, & Southern

PORTLAND & SOUTHEASTERN

Portland, Ark., to Engleville, Ark.

Junction Points	Connecting Railroads
Portland, Ark.	St. Louis, Iron Mountain, & Southern
Engleville, Ark.	End of line

POTEAU VALLEY

Shady Point, Ind. T., to Sutter, Ind. T.

Junction Points	Connecting Railroads
Shady Point, Ind. T.	Kansas City Southern
Sutter, Ind. T.	End of line

PRESCOTT & NORTHWESTERN

Prescott, Ark., to Daisy, Ark.

Junction Points	Connecting Railroads
Prescott, Ark.	St. Louis, Iron Mountain, & Southern
Arcadia, Ark.	Prescott & Northwestern
Ozan Jc., Ark.	Prescott & Northwestern
Tokie, Ark.	End of track
Daisy, Ark.	Being built to this point

Arcadia, Ark., to Gillett, Ark.

Arcadia, Ark.	Prescott & Northwestern
Gillett, Ark.	End of branch

Ozan Jc., Ark., to Ozan, Ark.

Junction Points	Connecting Railroads
Ozan Jc., Ark.	Prescott & Northwestern
Ozan, Ark.	Arkansas & Louisiana
	End of branch

QUEEN & CRESCENT

New Orleans, La., to Meridian, Miss.

Junction Points	Connecting Railroads
New Orleans, La.	East Louisiana
	Illinois Central
	Louisiana Southern
	Louisville & Nashville
	New Orleans, Fort Jackson, & Grand Isle
	Queen & Crescent

A SERIES OF QUESTIONS

Relating to the Subjects Treated of in This Volume.

It will be noticed that the questions contained in the following pages are divided into sections corresponding to the sections of the text of the preceding pages, so that each section has a headline that is the same as the headline of the section to which the questions refer. No attempt should be made to answer any of the questions until the corresponding part of the text has been carefully studied.

TRANSPORTATION

(SEVENTH DIVISION)

EXAMINATION QUESTIONS

(1) Name the railroad or railroads that form the shortest route between Atchison, Kans., and Roswell, N. Mex.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(2) Name the railroad or railroads that form the shortest route between Denver, Colo., and Leavenworth, Kans.; name four junction points on the route between these cities.

(3) Name the railroad or railroads that form the shortest route between: St. Joseph, Mo., and Joplin, Mo.; Colorado Springs, Colo., and McFarland, Kans.; Texico, N. Mex., and Pecos, Tex.

(4) Name two railroads that enter: Jefferson City, Mo.; Hutchinson, Kans.; Pueblo, Colo.; Lordsburg, N. Mex.

(5) Name the railroad or railroads that form the shortest route between Fort Madison, Iowa, and Great Bend, Kans.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(6) Name the railroad or railroads that form the shortest route between El Paso, Tex., and Topeka, Kans.; name four junction points on the route between these cities.

(7) Name the railroad or railroads that form the shortest route between: Dodge City, Kans., and Pueblo, Colo.; St.

Charles, Mo., and St. Joseph, Mo.; Concordia, Kans., and Leavenworth, Kans.

(8) Name two railroads that enter: Centralia, Mo.; Lyons, Kans.; Colorado Springs, Colo.; Deming, N. Mex.

(9) Name the railroad or railroads that form the shortest route between Grand Junction, Colo., and Rincon, N. Mex.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(10) Name the railroad or railroads that form the shortest route between Parsons, Kans., and St. Louis, Mo.; name four junction points on the route between these cities.

(11) Name the railroad or railroads that form the shortest route between: Gunnison, Colo., and Trinidad, Colo.; Jefferson City, Mo., and McPherson, Kans.; Durango, Colo., and La Junta, Colo.

(12) Name two railroads that enter: Eureka, Mo.; Olathe, Kans.; New Castle, Colo.; Santa Rosa, N. Mex.

(13) Name the railroad or railroads that form the shortest route between Pueblo, Colo., and Kansas City, Mo.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(14) Name the railroad or railroads that form the shortest route between St. Louis, Mo., and Ellsworth, Kans.; name four junction points on the route between these cities.

(15) Name the railroad or railroads that form the shortest route between: Fort Scott, Kans., and Hannibal, Mo.; Albuquerque, N. Mex., and Leadville, Colo.; Springfield, Mo., and Arcadia, Kans.

(16) Name two railroads that enter: Independence, Mo.; Salina, Kans.; Troy, Kans.; Roswell, Colo.

TRANSPORTATION

(EIGHTH DIVISION)

EXAMINATION QUESTIONS

(1) Name the railroad or railroads that form the shortest route between San Francisco, Cal., and Bowie, Ariz.; name four junction points between the two cities, on the required railway route; name one connecting railroad at each junction point.

(2) Name the railroad or railroads that form the shortest route between Jennings, Mont., and Everett, Wash.; name four junction points on the route between these cities.

(3) Name the railroad or railroads that form the shortest route between: Everett, Wash., and New Westminster, Can.; Warrenton, Ore., and Goble, Ore.; Biggs, Ore., and Shaniko, Ore.

(4) Name two railroads that enter: Nampa, Idaho; Sumas, Wash.; San Bernardino, Cal.; Biggs, Ore.

(5) Name the railroad or railroads that form the shortest route between Caliente, Nev., and Butte, Mont.; name four junction points between the two cities, on the required railway route; name one connecting railroad at each junction point.

(6) Name the railroad or railroads that form the shortest route between Vancouver, Wash., and Tacoma, Wash.; name four junction points on the route between these cities.

(7) Name the railroad or railroads that form the shortest route between: Pasco, Wash., and Athena, Ore.; Weiser, Idaho, and Council, Idaho; Phoenix, Ariz., and Ash Forks, Ariz.

(8) Name two railroads that enter: Reno, Nev.; East Portland, Ore.; Naco, Ariz.; Mammoth, Utah.

(9) Name the railroad or railroads that form the shortest route between Keeler, Cal., and Eureka, Nev.; name four junction points between the two cities, on the required railway route; name one connecting railroad at each junction point.

(10) Name the railroad or railroads that form the shortest route between Grand Junction, Colo., and Bingham, Utah; name four junction points on the route between these cities.

(11) Name the railroad or railroads that form the shortest route between: Bowie, Ariz., and Globe, Ariz.; Los Angeles, Cal., and San Francisco, Cal.; Salem, Ore., and Vallejo, Cal.

(12) Name two railroads that enter: Ogden, Utah; Wallace, Idaho; Adrian, Wash.; Pasadena, Cal.

(13) Name the railroad or railroads that form the shortest route between Fresno, Cal., and Grand Canyon, Ariz.; name four junction points between the two cities, on the required railway route; name one connecting railroad at each junction point.

(14) Name the railroad or railroads that form the shortest route between San Diego, Cal., and Reno, Nev.; name four junction points on the route between these cities.

(15) Name the railroad or railroads that form the shortest route between: Port Townsend, Wash., and Quilcene, Wash.; Pasco, Wash., and Monte Cristo, Wash.; Plumas, Cal., and Madeline, Cal.

(16) Name two railroads that enter: Los Angeles, Cal.; Palisade, Nev.; Athena, Ore.; Cochise, Ariz.

TRANSPORTATION

(NINTH DIVISION)

EXAMINATION QUESTIONS

(1) Name the railroad or railroads that form the shortest route between Buffalo, N. Y., and Detroit, Mich.; name four junction points between these cities, on the required railway route; name one connecting railroad at each junction point.

(2) Name the railroad or railroads that form the shortest route between Detroit, Mich., and Chicago, Ill.; name four junction points on the route between these cities.

(3) Name the railroad or railroads that form the shortest route between: Portsmouth, Ohio, and Marion, Ohio; La Fayette, Ind., and New Albany, Ind.; Columbus, Ohio, and Cleveland, Ohio; Michigan City, Ind., and Greencastle, Ind.

(4) Name two railroads that enter: Allegan, Mich.; Athens, Ohio; Mt. Vernon, Ill.; Frankford, Ind.

(5) Name the railroad or railroads that form the shortest route between Terre Haute, Ind., and Sandusky, Ohio; name four junction points between these cities, on the required railway route; name one connecting railroad at each junction point.

(6) Name the railroad or railroads that form the shortest route between Chicago, Ill., and Zanesville, Ohio; name four junction points on the route between these cities.

(7) Name the railroad or railroads that form the shortest route between: Steubenville, Ohio, and Springfield, Ohio; Elkhart, Ind., and Anderson, Ind.; Louisville, Ky., and Fort Wayne, Ind.; Cairo, Ill., and Freeport, Ill.

(8) Name two railroads that enter: Joliet, Ill.; Lima, Ohio; Bedford, Ind.; Ionia, Mich.

(9) Name the railroad or railroads that form the shortest route between Louisville, Ky., and Detroit, Mich.; name four junction points between these cities, on the required railway route; name one connecting railroad at each junction point.

(10) Name the railroad or railroads that form the shortest route between Cincinnati, Ohio, and Mackinaw, Mich.; name four junction points on the route between these cities.

(11) Name the railroad or railroads that form the shortest route between: Suspension Bridge, N. Y., and Detroit, Mich.; Detroit, Mich., and Toledo, Ohio; Bay City, Mich., and Kalamazoo, Mich.; Superior, Wis., and Marquette, Mich.

(12) Name two railroads that enter: Lincoln, Ill.; Tiffin, Ohio; Galesburg, Ill.; Jackson, Mich.

(13) Name the railroad or railroads that form the shortest route between Cincinnati, Ohio, and Sheboygan, Mich.; name four junction points between these cities, on the required railway route; name one connecting railroad at each junction point.

(14) Name the railroad or railroads that form the shortest route between Cairo, Ill., and Cleveland, Ohio.

(15) Name the railroad or railroads that form the shortest route between: Springfield, Ohio, and Peoria, Ill.; Hamilton, Ohio, and Springfield, Ill.; Terre Haute, Ind., and Westport, Ind.; Madison, Wis., and Centralia, Ill.

(16) Name two railroads that enter: Ishpeming, Mich.; Findlay, Ohio; Evansville, Ind.; Galena, Ill.

TRANSPORTATION

(TENTH DIVISION)

EXAMINATION QUESTIONS

(1) Name the railroad or railroads that form the shortest route between Minneapolis, Minn., and Jennings, Mont.; name four junction points between these cities, on the required railway route, and name one connecting railroad at each junction point.

(2) Name the railroad or railroads that form the shortest route between Edgeley, N. Dak., and Sioux Falls, S. Dak.; name four junction points on the route between these cities.

(3) Name the railroad or railroads that form the shortest route between: Eau Claire, Wis., and Elroy, Wis.; Ashland, Wis., and Portage, Wis.; Green Bay, Wis., and Winona, Minn.

(4) Name two railroads that enter: Channing, Mich.; Lyle, Minn.; Madison, Wis.; Helena, Mont.

(5) Name the railroad or railroads that form the shortest route between Helena, Mont., and Superior, Wis.; name four junction points between these cities, on the required railway route, and name one connecting railroad at each junction point.

(6) Name the railroad or railroads that form the shortest route between Manitowoc, Wis., and St. Paul, Minn.; name four junction points on the route between these cities.

(7) Name the railroad or railroads that form the shortest route between: Sioux Falls, S. Dak., and Shakopee, Minn.;

Ortonville, Minn., and Glencoe, Minn.; Brainerd, Minn., and Bemidji, Minn.; Lakota, N. Dak., and Minot, N. Dak.

(8) Name two railroads that enter: Ypsilanti, Mich.; Belle Fourche, S. Dak.; Grand Rapids, Wis.; Fargo, N. Dak.

(9) Name the railroad or railroads that form the shortest route between Minot, N. Dak., and Austin, Minn.; name four junction points between these cities, on the required railway route, and name one connecting railroad at each junction point.

(10) Name the railroad or railroads that form the shortest route between Sheboygan, Wis., and Duluth, Minn.; name four junction points on the route between these cities.

(11) Name the railroad or railroads that form the shortest route between: Devils Lake, N. Dak., and Starkweather, N. Dak.; Bismarck, N. Dak., and Washburn, Wis.; Aberdeen, S. Dak., and Yankton, S. Dak.; Redfield, S. Dak., and Parker, S. Dak.

(12) Name two railroads that enter: Brainerd, Minn.; Watertown, S. Dak.; Milwaukee, Wis.; Billings, Mont.

(13) Name the railroad or railroads that form the shortest route between Pierre, S. Dak., and Milwaukee, Wis.; name four junction points between these cities, on the required railway route, and name one connecting railroad at each junction point.

(14) Name the railroad or railroads that form the shortest route between Chicago, Ill., and Marquette, Mich.; name four junction points on the route between these cities.

(15) Name the railroad or railroads that form the shortest route between: Canton, S Dak., and Chamberlain, S. Dak.; Escanaba, Mich., and Ishpeming, Mich.; St. Ignace, Mich., and Calumet, Mich.; Lewistown, Mont., and Lombard, Mont.

(16) Name two railroads that enter: Waukesha, Wis.; Allegan, Mich.; Calumet, Mich.; Ashland, Wis.

TRANSPORTATION

(ELEVENTH DIVISION)

EXAMINATION QUESTIONS

(1) Name the railroad or railroads that form the shortest route between Jonesboro, Ark., and Fort Worth, Tex.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(2) Name the railroad or railroads that form the shortest route between Memphis, Tenn., and Oklahoma, Okla.; name four junction points on the route between these cities.

(3) Name the railroad or railroads that form the shortest route between: Vinita, Ind. T., and Denison, Tex.; Baldknob, Ark., and Greenville, Tex.; Pecos, Tex., and Marshall, Tex.

(4) Name two railroads that enter: Alexandria, La.; Pecos, Tex.; Pine Bluff, Ark.; Lawton, Okla.

(5) Name the railroad or railroads that form the shortest route between Trinidad, Colo., and Fort Worth, Tex.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(6) Name the railroad or railroads that form the shortest route between New Orleans, La., and Fort Smith, Ark.; name four junction points on the route between these cities.

(7) Name the railroad or railroads that form the shortest route between: Kerville, Tex., and Houston, Tex.; Natchez, Miss., and Collinston, La.; New Iberia, La., and Laredo, Tex.

(8) Name two railroads that enter: McNeil, Ark.; O'Keene, Okla.; Muskogee, Ind. T.; Hillsboro, Tex.

(9) Name the railroad or railroads that form the shortest route between Arkansas City, Kans., and Austin, Tex.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(10) Name the railroad or railroads that form the shortest route between Jackson, Miss., and Dallas, Tex.; name four junction points on the route between these cities.

(11) Name the railroad or railroads that form the shortest route between: Dallas, Tex., and Beaumont, Tex.; Hope, Ark., and Winnfield, La.; Texarkana, Ark., and Beaumont, Tex.

(12) Name two railroads that enter: Russellville, Ark.; Howe, Ind. T.; Sweetwater, Tex.; Hobart, Okla.

(13) Name the railroad or railroads that form the shortest route between Laredo, Tex., and Texarkana, Ark.; name four junction points, between these cities, on the required railway route; name one connecting railroad at each junction point.

(14) Name the railroad or railroads that form the shortest route between Coffeyville, Kans., and Shreveport, La.; name four junction points on the route between these cities.

(15) Name the railroad or railroads that form the shortest route between: Helena, Ark., and Clarendon, Ark.; Memphis, Tenn., and Hoxie, Ark.; Hot Springs, Ark., and Pine Bluff, Ark.

(16) Name two railroads that enter: South McAlester, Ind. T.; Waco, Tex.; Alexandria, La., Hope, Ark.
